

Chapter 3559

For a martial artist like Wesley, if one day in the future he can enter the dark realm, it is simply the greatest opportunity in life.

However, he also understood the meaning of Charlie's words.

Whether he can get this opportunity or not depends on the performance of himself and the other soldiers in the Dragon Hall in the future.

So, he immediately knelt on one knee, arched his hands and said, "Mr. Wade, Dragon Hall will do everything possible and will never let you down!"

Others followed him on one knee and expressed their attitude in unison.

Charlie accepted the crowd's kneeling and bowed indifferently, and said to Wesley, "From today on, you will be more strict with your subordinates than before, and you must not let anyone be as arrogant as Apollo Wainwright and Calum were before."

Wesley said respectfully without hesitation, "Please rest assured, Mr. Wade, I must be strict with myself and the members of Dragon Hall!"

Charlie nodded with satisfaction, and said, "Okay, time is also right, you should leave for the airport now, hurry up and put the armed escort on the ground."

"Okay!" Wesley hurriedly responded, and said to Charlie, "Mr. Wade, you let me keep a group of people stationed in Aurous Hill, or let Ulysses stay in person and wait for your dispatch!"

Charlie waved his hand, "No need. After all, he is second only to you in the Dragon Hall."

“He will stay in Aurous Hill. You leave me a five-star warrior, and you can match it with a few three-star warriors.”

“Okay.” Wesley immediately selected one from the crowd and said, “Christian, come here!”

“Yes!” A young man strode out from the crowd and said, “Please give orders from the lord!”

Wesley said, “You choose 15 people to form a team.”

“You will be the leader of the team. The entire team will be stationed in Aurous Hill.”

“Everything is under the command of Mr. Wade!”

“Yes!” The young man named Christian did not hesitate and said, “Mr. Wade, I’m a five-star warrior in Dragon Hall. If you have anything to do, I will go all out!”

Charlie nodded and said, “After you choose a good person, just stay at Shangri-La Hotel, Isaac Cameron will arrange your food, clothing, housing and transportation in Aurous Hill.”

Christian said without hesitation, “Subordinates obey!”

Charlie looked at the time, and then ordered Isaac Cameron, “Isaac arrange vehicles and send Wesley to the airport.”

“Okay young master.”

Charlie asked Wesley again, “If you have any ideas about the transformation of that ship, please sort it

out and tell me as soon as possible.”

“I will directly ask Stella Scott to arrange the shipyard to carry out the transformation.”

Wesley hurriedly said, “Mr. Wade, I already thought about the general transformation is in a few directions.”

“The deck is transformed, and part of the cargo warehouse is transformed into living cabins to accommodate more armed personnel.”

“As for the speedboat, it is simple, you can purchase at any time.”

Then, he said again, “But now the time is urgent. I don’t think there is any need to modify too much.”

“Just level the deck first and leave space for at least three helicopters to land.”

“This kind of ship has at least the interior.”

Chapter 3560

“For the cabin that can accommodate dozens of people, the soldiers of the Dragon Hall can make do with it for the time being, put it into use as soon as possible, and then use it while slowly remodeling it.”

Charlie nodded, and said, “It’ll be a little while, I’ll ask Stella Scott to make arrangements as soon as possible.”

“When the deck of the freighter has been transformed, it will go to the Gulf of Aden and deliver it to you as soon as possible.”

“Good!” Wesley said firmly, “Mr. Wade, rest assured, within one week, I will fix all the frontier bases!”

.....

Then, Wesley took most of the Dragon Hall soldiers and hurriedly left Shangri-La Hotel headed for the airport.

Charlie’s Boeing business jet is ready to take off and will fly directly to Sana’a, the capital of Yemen.

Christian, and more than a dozen other soldiers from the Dragon Hall, were arranged by Isaac Cameron to move into the administration building of Shangri-La Hotel.

Charlie called Stella Scott again and told her about Wesley’s requirements for the freighter.

Although Stella Scott didn’t know what Charlie was going to do, she immediately said that she would arrange that freighter into the shipbuilding immediately.

The transformation will be completed in a short time.

After they talked, the time has come to noon.

Isaac Cameron asked Charlie, “Young Master, do you have any other arrangements for noon?”

Charlie shook his head, “There are no arrangements for the time being. I plan to see Jasmine Moore in the afternoon.”

“I’ll talked with her about the auction.”

Isaac Cameron checked the time and said, “Young Master, maybe you’ll eat at Shangri-La Hotel at noon.”

“I will let them arrange lunch now.”

“I’ll go to Heaven Spring Mansion.” Charlie said lightly, “No matter how exquisite the food is made in a big hotel like you, it will inevitably smell like a big pot of rice.”

Isaac Cameron hurriedly said, “Then I will prepare the car and say hello to Don Albert by the way. Let’s go to Heaven Spring Mansion.”

Charlie exhorted, “By the way, call Liam Weaver over. I have something to tell him.”

“Okay!” Isaac Cameron agreed and said hurriedly, “Young Master, then please move to the sky garden first.”

During this period of time, Charlie did not ask more about the operation of Oracle Pharmaceutical.

Liam Weaver was responsible for everything. He himself was more at ease.

However, now he wants to speed up the development of Oracle Pharmaceutical, so this time he came to Liam Weaver with the intention of giving him one or two new prescriptions so that he could hurry up to prepare new medicines.

Soon, Isaac Cameron informed Don Albert, and then drove Charlie to Heaven Spring Mansion by himself.

Charlie just got in the car when his mobile phone rang, and it was Zara who called.

Charlie answered the phone and smiled and asked her, "Why is Miss Banks calling me at this time?"

Zara said in a respectful tone on the other end of the phone, "Benevolence, I called to report to you."

"Yesterday, Grandpa announced my decision to take over as Banks Family's Patriarch at Banks' house."

"Today In the morning, the general meeting of shareholders was held in the Banks Group and it was announced that my appointment as the chairman of the Banks Group has now officially taken over the Banks family."

Charlie said with a smile, "That's perfect! I congratulate you for becoming Banks Family Patriarch at a young age! It is really gratifying!"

Zara respectfully said, "It's all thanks to the help of my benefactor."

"If there was no such man, I would have died in Kyoto on that snowy night..."

Charlie said seriously, "Don't go through those old calendars."

"You are now the head of the Banks family, in charge of a large group with a market value of more than one trillion."

"If you still have a grateful heart, it will be difficult to secure this position. "

Zara also said earnestly, "Benevolence, I'm only grateful to you."

Charlie smiled slightly, "Okay, don't say so much if you are polite."

"It's the first time for you and me to be the masters of the house, so let's work together in the future. "

"I understand!" Zara said firmly, "I will do my best to manage the Banks family well, and at the same time, please rest assured that the Banks family will no longer compete against you in any field."

"As long as you have a word, no matter what field or industry, the Banks family will quit forever without hesitation!"

Charlie smiled and said, "It's not that normal and healthy competition can still exist."

"Of course, if the competitive relationship can be transformed into cooperative relationship, it would be better!"

With that, Charlie asked concerned, "By the way, Lord Banks has given you all the power. Do you feel the pressure on you inside the Banks family?"

"Big." Zara laughed at herself, "Everyone looks at me like they look at the aggressor, and they can't wait to eat me raw."

After that, Zara said seriously, "But I'm sure I can hold them down, don't worry about it."

"Okay." Charlie smiled slightly, "If you need help, remember to ask me."

"Okay! Thank you, benefactor!"

Charlie said again, "By the way, I have been studying for the past two days."

"The initial plan for the transformation of Dragon Hall is to let them set up an armed escort company."

"After the establishment, I will first give them all the escort work to BAIT Shipping."

"When you have time to come to Aurous Hill, we can talk in person."

Zara did not hesitate, and even said with a bit of excitement, "Benevolence, then I will go over to see you tomorrow!"

Chapter 3561

At this time, Zara couldn't wait to come to Aurous Hill to meet Charlie.

Had it not been for the news that a press conference would be held in the afternoon to formally announce her successor to the Banks Family Patriarch and Chairman of the Banks Group, she would have liked to fly over right now.

Moreover, she came to Aurous Hill for two very good reasons.

One is that her mother lives in Aurous Hill, and the other is that she is also a shareholder of BAIT Shipping.

With such a large investment in BAIT Shipping, she naturally has to come and pay attention to the operation situation frequently.

Charlie didn't think too much, just because he really wanted to meet Zara and Stella Scott and have a good chat.

Moreover, he not only wanted to talk to them about the Dragon Hall armed escort, but also about the future development direction of BAIT Shipping.

So he said to Zara, "Call me after you land tomorrow, and I will also make an appointment with Stella. Then we will meet and talk."

"Okay." Zara hurriedly said, "Then I won't bother you anymore, see you tomorrow."

"See you tomorrow."

Charlie hung up, and Isaac Cameron, who was driving, couldn't help asking, "Young Master, Miss Banks has completely taken over the Banks family?"

"Yeah." Charlie smiled and said, "The 24-year-old girl inherits trillions of fortunes, and it is probably the only one in the world."

"Yes..." Isaac Cameron couldn't help sighing, "This news is announced. After she comes out, Miss Banks will probably become the woman in this world that men most eagerly to marry..."

Charlie smiled and said, "If anyone marries her, he will become a winner in life in one step."

Charlie was just talking on the phone and suddenly it rang again.

Looking down, the caller turned out to be Helena from far away in Northern Europe.

Charlie recalled that when he was in Northern Europe, the empress had promised that Helena would succeed him in three days.

It was estimated that it would be today.

So Charlie answered the phone and asked her with a smile as soon as he came up, "Helena, is your coronation ceremony over?"

Helena said in a very gentle voice, "Mr. Wade, my coronation ceremony will be in four, it will be held in the Capital Cathedral in hours ..."

"Four hours later?" Charlie asked subconsciously, "Should such a grand ceremony be held in the afternoon?"

Helena hurriedly said, "No, it's ten o'clock in the morning."

"Oh..." Charlie remembered the jet lag, and laughed at himself, "I'm sorry, I forgot about the jet lag, so it's just six o'clock in the morning where you are now?"

"Yes..." Helena said softly, "I got up at four o'clock to make up and change clothes to prepare."

"It took two hours to change the dress. It feels more troublesome than getting married."

Chapter 3562

"Of course." Charlie smiled and said, "Marriage is two people thing, at best, two families, but your coronation of the Queen's position, this is your entire royal family, and even the whole country festival."

Charlie said again, "Then I will congratulate you in advance for successfully inheriting the crown!"

Helena said gratefully, "Thank you Mr. Wade..."

After speaking, she hesitated for a moment, and asked a little nervously, "Mr. Wade ...You...can you come to my coronation ceremony?"

Charlie said apologetically, "I'm sorry Helena, I am in Aurous Hill now, so I can't go there to attend your coronation ceremony, and your European royal family's coronation at the ceremony, if I showed up with an Asian face, and it would be more eye-catching."

"I understand..." Helena said in a lost voice, "I just...I just want you to be here, so I can't help thinking."

"Even though I know that you may be hard to pull away, and because of your personality, you may not like this kind of occasion..."

Charlie said, and asked her, "It's only a few hours to start, are you nervous now?"

"Nervous..." Helena confided, "Because this coronation ceremony is not only public, but also live simultaneously worldwide, so I am very nervous now..."

Charlie asked curiously, "Should such a solemn matter need to be broadcast live worldwide?"

"Yes..." Helena said helplessly, "Because as early as the 1950s, before the coronation, the Queen of Britain had allowed national Radio and TV broadcast her coronation ceremony live, so this time I succeeded, and the Nordic people also petitioned online, hoping to broadcast my coronation process live."

"After the royal family negotiated with the Nordic government, they also felt that this was an upgrade of the royal family."

“A good opportunity to close the distance between the royal family and the people, so they authorized many TV stations, online video sites and media to broadcast live for free...”

Charlie comforted, “Don’t be nervous, the global live broadcast is indeed a good opportunity for the world to see you.”

“Now there are not many royal families left in the world itself, and there are even fewer queens, not to mention you.”

“Young and beautiful queen, I believe that after this coronation ceremony, you will become one of the most famous women in the world.”

“This is a great thing for you that is profitable and harmless, not only for you, but also the entire royal family will bring more influence and potential benefits, which can further improve the stability of your imperial power.”

Helena asked hurriedly, “Mr. Wade... Then will you watch my coronation ceremony?”

“Yes, of course!” Charlie said earnestly, “I only know you as a serious royal member, and you will soon succeed to the throne to become the queen.”

“This cowhide is really enough for me to blow for more than ten years, so it is such a big deal.”

“The coronation ceremony, I will definitely watch the live broadcast online.”

Helena said gratified, “That would be great...Mr. Wade, you must not lie to me...”

Charlie smiled and said, "Don't worry. I will definitely watch the live broadcast all the time, and let our short video platform do a broadcast at that time to increase your influence in China."

Helena said with joy, "I don't pay attention to other people who don't watch it. As long as you are willing to watch, I will be satisfied."

Charlie said relieved, "Don't worry, I will cheer for you in China."

Helena said moved, "Thank you Mr. Wade, I will be two hours later at eight o'clock. I will take the royal carriage from the palace to the cathedral."

"Then I will wear the brooch I carefully prepared for you on my chest."

"You must remember to read it!"

Charlie asked in surprise, "The brooch for me? This... what does it mean?"

Helena said shyly, "You'll know when you see it..."

Charlie knew Helena wanted to leave a suspense, so he didn't continue to ask.

However, he suddenly thought of the auction event, and said to Helena, "By the way, there is something I have to trouble you to help me convey it to your grandma."

"My grandma?" Helena asked in surprise, "What do you want me to convey to her?"

Charlie smiled, "Should a lot of European royals and upper-class people attend your coronation

ceremony today?”

“Yes... “Helena said, “Almost all European royal families have sent representatives, even some of the Middle Eastern royal families have come.”

Charlie said, “I have to trouble your grandma to help me in front of these people, and publicize the rejuvenation pill!”

The Amazing Son-In-Law

Chapter 3563-3566

Chapter 3563

“Promote rejuvenation pill?!”

Upon hearing Charlie’s words, Helena was surprised and asked, “Mr. Wade, you’re going to do foreign sales rejuvenation pills?”

“Yes.”

Helena couldn’t help but exclaimed, “Then I am afraid it will be a sky-high price...”

Charlie said with a smile, “If it can be sold to sky-high price, it would be the best.”

He added, “Europe’s royal families, nobles, and rich people are all my potential customers, so you have to ask your grandma to help me publicize it.”

“As for the specific time and rules of the auction, I will officially release it through the Wade family in a

few days.”

Helena said immediately, “No problem, I’ll talk to grandma in a while!”

“Okay.” Charlie smiled slightly, “Then I won’t delay you. I will follow your coronation ceremony online at that time!”

Helena said softly, “Okay, Mr. Wade, in the past two to three decades, China and the United States have been leading the world in the development...”

“In addition, Japan ranks third in the world for many years, so that the old empires in Europe have appeared to be a bit weak in recent years.”

“However, Europe is different from the United States, China, and Japan in that the latter are among the richest in these three countries.”

“Most of them are newly-emerged families and business owners, while in Europe, there are really a large number of royal families and great nobles that have accumulated centuries of history.”

The ancestors of this group of people have been prospering since the first industrial revolution.

After hundreds of years of development, the family has already mastered countless wealth.

This is also what the outside world calls ‘OldMoney’.

Although this group of people hasn’t shown much leakage in recent years, in fact, all of them are rich.

Regardless of the boss of a new domestic listed company, it seems very impressive that he is worth more than one billion at a time.

This group of 'OldMoney' picks up a painting from the wall of his castle, and it is estimated that they can sell hundreds of millions of dollars.

Therefore, if Charlie wants to do a big "Rejuvenation Economy" this time, European tyrants have become an indispensable part.

If the Queen of Northern Europe, who is about to abdicate, comes out and speaks, it will definitely touch this group of local tyrants in Europe.

After finishing the call with Helena, Charlie remembered Orion Exeor, a Feng shui master in the United States, so he asked Isaac Cameron, "Isaac, what time is it in Los Angeles?"

Isaac Cameron hurriedly said, "Young Master, Los Angeles is on the west coast. It's fifteen hours short, it's almost less than 8 o'clock in the evening!"

"Good." Charlie nodded, "It's not too late."

After that, he called Orion Exeor.

Chapter 3564

Soon, Orion Exeor's hearty voice came from the other end of the phone, "Master Wade, the old man is about to call you after you finish these two days."

"I didn't expect you to be so busy, but you called me first!"

Charlie smiled slightly, and asked respectfully, "How did Mr. Exeor know that I was busy?"

Orion Exeor smiled, "I heard about the Dragon Hall destroy the Wade family, I heard about it in the United States."

"I have the courage to make a divination for you, and find that the hexagram is actually the supreme aspect of the dragon entering the sea."

"I also know that the Dragon Hall is definitely not your opponent."

Speaking of this, Orion Exeor said again, "According to the old man's speculation, Dragon Hall is not only Wade family's opponent, but the key to sending you this dragon into the sea from a simple talk!"

"If the old man guessed correctly, you should have become the head of the Wade family, right?"

Charlie couldn't help asking in amazement, "Is Mr. Exeor's ability to divination and fortune telling so superb?"

"It is so amazing to be able to see that I have become the Patriarch of the Wade Family only through the hexagrams! "

Orion Exeor said humbly, "I am far from being as magical as Master Wade you said."

"The hexagrams can only reveal the general trend, but what kind of information is contained in it is still needed to perform a logical analysis based on the actual situation."

After that, Orion Exeor said again, "At the beginning of Wade Mountain, I once told you that you fell to Aurous Hill at the beginning, and it was the Dragon Shoal, but after the Dragon's Great Array broke, I have lost the shackles of talking."

“At that time, I suggested that you go back to Eastcliff, so that the dragon enters the sea.”

“But the last time Mr. Mai went to Aurous Hill, I realized that you still live in Aurous Hill.”

“Yes .”

“Charlie said with a smile, “I have lived in Aurous Hill for a long time, so I am used to it, and I don’t want to change easily.”

Orion Exeor laughed, “This time, the outside world is rumored that the Wade family had suffered a catastrophe.”

“If Wade family really fell, then your hexagram image must be the fall of the tiger falling in the dragon shoal, but your hexagram image shows the glorious picture of the dragon entering the sea, so I speculated that this time, the Dragon Hall must have given you a golden opportunity.”

Speaking of this, Orion Exeor said again, “The old man thought that although Wade family had the life, I really wanted to be without any external force.”

“In the case of interference, it is not easy to take over the power of the Wade family!”

“As the saying goes, freezing three feet is not a day’s cold, the Wade family’s accumulated family business for so many years, the rights and management structure that have been built over so many years, are very capable.”

“No matter how strong you are, you still need to work slowly if you want to hold the power, and the only chance to get you to the sky is the attack of a powerful enemy.”

“Therefore, combining these information, the old man speculates that Master Wade, you must now become the master of the Wade family!”

Charlie sincerely admired, “Mr. Exeor is not only capable of divination, but also admirable in logical analysis!”

Orion Exeor hurriedly said, “Master Wade, you are absurd!”

“The old man has lived a hundred and three times, so he has nothing to do. It’s just eating a few more bowls of rice than others, so I don’t dare to make an axe in front of you!”

Charlie smiled and said, “Mr. Exeor, please don’t say that. I am just a fledgling junior in front of you...”

Orion Exeor laughed and said, “Master Wade, you and I don’t have to praise each other here.”

“Excuse me, if you call the old man today, what are your orders?”

Charlie said, “Mr. Exeor, I want to ask you a favor.”

Orion Exeor said hurriedly, “Master Wade, the old man’s life is yours. If you have anything, just order, the old man will do his best!”

Charlie said with a smile, “I plan to hold an auction in Aurous Hill at the end of the month.”

“This rejuvenation pill will be taken at the auction.”

Orion Exeor said in shock when he heard the words rejuvenation pill and said, “Master Wade...you...you

just inherited the Wade family, so you can never be short of money, why do you want to auction such a precious rejuvenation pill?"

At the beginning, Orion Exeor looked for the life he had hit.

It took four years to build Wade Mountain for the Wade family.

Only then did he get a rejuvenation pill given by Charlie. So, no other person know better than him how high the value of Rejuvenation Pill is.

Hearing that Charlie said he was going to auction the Rejuvenating Pill, he couldn't understand that Charlie would never be short of money, so why would he put such a precious immortal medicine for auction?

Charlie smiled at this moment and said, "It's not because of lack of money to auction Rejuvenation Pills."

"It's mainly Aurous Hill. You also know that although it is an ancient capital of the Six Dynasties and has a rich heritage, the economic development in these years has indeed fallen behind."

"The presence is not strong, and the international reputation is even less known..."

"So, I want to give Aurous Hill more exposure overseas through this auction, and by the way also attract some top wealthy people to Aurous Hill to invest in real estate!"

Speaking of this, Charlie said seriously, "It's not popular nowadays that you want to overtake a curve, so I also want Aurous Hill to overtake a curve to see the effect!"

After listening to Charlie's explanation, Orion Exeor fully understood Charlie's intentions in an instant, and even the deeper intentions that Charlie didn't say could be fully understood by him.

He knew that Charlie wants to use Rejuvenating Pill to auction, not just to give Aurous Hill more exposure, there must be a deeper plan in it.

And Charlie had always had a thought hidden in his heart, and he didn't tell anyone.

He wanted to engage in this auction because he wanted to use the excellent bait of Rejuvenation Pill to attract the richest and most powerful group of people in the world step by step.

To him, Rejuvenation Pill is like the top nest material sprinkled in the water when fishing.

With this top-notch nesting material, not only ordinary fish but also rare big fish can be attracted over.

Even the behemoths that usually hide in the deepest and darkest places will definitely be attracted.

These behemoths are much more cunning than ordinary fish, and it is very likely that a nest is not enough to attract them.

Because of this, Charlie must continue to hold the auction.

They won't come to fight once, and won't come twice, and they may not be able to hold back the third time.

These behemoths are the people who know and master the rules of how this world works best.

They abide by the law of the dark forest as described in the science fiction novel “Three-Body”, and they are hunters with guns sneaking in this dark forest.

Moreover, they will always hide in the dark with guns, hide their figures, and accumulate energy.

Even when they shoot and kill, they will never expose themselves.

However, with the magic medicine of Rejuvenation Pill as bait, they will never be able to hide forever!

In addition, Charlie set the rules that the Rejuvenation Pill must be taken on the spot.

Once all the behemoths are interested in the Rejuvenation Pill, they must show themselves and come to Aurous Hill in person!

And once they can't control the temptation and come out of the darkness, they will violate the taboo of the Dark Forest Law, and will be exposed to Charlie's field of vision, and even to Charlie's sniper range!

What Charlie had to do was to let these behemoths hidden in the dark forest show their figures, and he would replace them and become the strongest hunter hidden in the dark forest!

If there are hidden enemies among these giants, Charlie can also hide in the dark and directly launch a fatal blow.

At this time, Orion Exeor also figured out Charlie's intention.

It's just that he didn't say anything, but laughed and said, “Master Wade, your idea of overtaking on a curve is really brilliant.”

“To the real rich in this world, the little Aurous Hill has almost no attraction.”

“But once there is a rejuvenating pill, then this place will become a holy place for all the wealthy!”

“Attract them to Aurous Hill, I am afraid that Aurous Hill’s economy will not take long to achieve a huge explosion!”

Charlie said with a smile, “I really plan to do this, so I need Mr. Exeor to help me publicize in the United States.”

“Apart from Europe, the most hidden place in the world of huge wealth is probably the United States.”

Chapter 3566

Orion Exeor said immediately, “Master Wade, many people here in the U.S. are chasing after me and asking me how I went to China for four years when I was about to die.”

“On the contrary, I got younger and younger, including Mr. Mai.”

“They begged me to clarify their doubts, but I have been tight-lipped and never said a word.”

“This feeling of hiding a great secret can sometimes be really tormented. If I can say it, it would be great!”

After that, he said again, “Since Young Master Wade is going to use Rejuvenation Pill to add bricks and tiles to Aurous Hill, then I shall do my best!”

“You can rest assured that from today on, I will inform everyone I know about Rejuvenation Pill.”

“This old man actual cases of my own experiences, coupled with the old man in this life fortune-teller’s ability to make an endorsement, then they will certainly believe rejuvenation pill and rush!”

Charlie laughed, “It really could be better.”

Charlie added, “By the way, Mr. Exeor, when you talk about Rejuvenation Pill, don’t mention my identity, just say that you found the opportunity of Rejuvenation Pill in China, and this time you heard that there are mysterious people who are going to take out the Rejuvenation Pill for auction in Aurous Hill.”

“Needless to say, let them be curious about the rest. In a few days, I will officially announce the news through other channels.”

“Okay!” Orion Exeor said without hesitation, “Leave this to me, Master Wade, don’t worry!”

Charlie thanked him, “Then I would like to thank Mr. Exeor, and I will reserve a VIP seat for you at the auction, and ask you to come over and guide me!”

Orion Exeor smiled heartily, “Master Wade, I can guess the transaction price of this rejuvenation pill at that time without divination.”

“I’m afraid It is bound to create a world auction record.”

“Although I have made no less money in my life, if this old man really have to compare with the richest group of people in the world, it is only a drop in the bucket.”

“It is estimated that the starting price will not be my bones, I can’t get it...”

Charlie said with a smile, "Mr. Exeor, this auction itself is intended to be used for cutting leeks."

"How can you participate in the auction? You can just come, and I will have a generous gift at that time."

When Orion Exeor heard this, he suddenly said nervously, "Young Master Wade... I... I doesn't mean that...if you need me to join in, I will never give up!"

"Then I will definitely go and harass, but I will never dare to accept your gift..."

Charlie didn't explain much, and smiled slightly, "Mr. Exeor, we can be considered as a year-end payment."

"I won't tell you so much anymore. I will send you an invitation letter at that time. If you have time, I will work hard for you to run!"

"Okay!" Orion Exeor said without hesitation, "Young Master Wade, don't worry, I will be there by then!"

"In addition, the promotion of the rejuvenation pill is also covered by me."

"I promise that within two days, all the rich people in the United States will desperately try to figure out what is the rejuvenation pill!"

Orion Exeor's words made Charlie a little excited.

Moreover, Charlie was very grateful to this old gentleman.

Although he and himself are just one-sided fate, Orion Exeor's fate allowed him to spend four years to

help him get rid of the predicament.

Although he was also looking for his own life, it was an established fact that others helped him, so Charlie was naturally grateful to him.

A rejuvenation pill can make a healthy old man 20 years younger and increase his life expectancy by 20 years.

For centenarians like Orion Exeor, there are too many illnesses accumulated on his body.

When the last rejuvenation pill was taken, almost half of the medicine's power is used to treat those old diseases, so at most it will allow him to live for another ten years.

If you give him another rejuvenation pill, at least it will allow him to live more than ten or twenty years.

Therefore, Charlie had already made up his mind, this time if Orion Exeor come to Aurous Hill, he would give him another rejuvenation pill.

After all, this thing is nothing to him.

In the past, the Rejuvenation Pill was somewhat precious to Charlie, and with the Rejuvenation Pill, his body has also been greatly improved.

But since he made the Pill for Rejuvenation, the Rejuvenation Pill has been too ordinary for him, and for him, it has no value at all to take the Rejuvenation Pill.

As for refining more rejuvenation pills, it is not a difficult task for him.

Now the aura in the body is extremely abundant, refining the Rejuvenation Pill is just a piece of cake.

Although the medicinal materials needed for rejuvenation Pill are rare and precious, they have not yet reached the point where rich people can't find it.

If one-fourth of the money earned from the auction of Rejuvenation Pills is given to Graham Quinton, he may be able to buy enough raw materials for refining thousands of Rejuvenation Pills from all over the world!

The Amazing Son-In-Law

Chapter 3567-3570

Chapter 3567

After Charlie and Orion Exeor said goodbye to each other on the phone, Isaac Cameron also drove the car to the door of Heaven Spring Mansion.

Together with Don Albert, Liam Weaver, the general manager of Oracle Pharmaceutical, came out to greet him.

Seeing Charlie, Liam Weaver hurriedly stepped forward and respectfully said, "Master Wade!"

Charlie didn't expect Liam Weaver to come so soon, so he couldn't help but smiled, "Why did you arrive so soon?"

Liam Weaver hurriedly said, "Mr. Cameron said that you have something to do with me, so I came here quickly."

Charlie nodded and smiled, "I want to talk to you about the new medicine, let's go inside."

Don Albert said quickly, "Master Wade, the diamond box is ready. Please!"

Charlie said, "Let's go together."

A few people came to the diamond box with Charlie.

After taking their seats, Charlie went straight to the subject and asked Liam Weaver, "How is the recent business situation of Oracle Pharmaceutical?"

Liam Weaver couldn't hide his excitement and said, "Master Wade, our Nova Dias has very good sales and has successfully entered the markets of some developed countries in Europe and the United States."

"It's definitely not a problem for annual sales to exceed 30 billion."

Charlie didn't feel much after hearing this data.

Instead, Isaac Cameron asked in shock, "Just with Nova Dias, one month's global sales exceeded a billion?"

Liam Weaver smiled and said, "Mr. Cameron, this is only half of the situation in developed countries in Europe and the United States."

"You must know that Nova Dias is scattered overseas."

"No matter which country's currency, the actual pricing is roughly equivalent to the US dollar exchange rate."

“It costs about one hundred US dollars, which is equivalent to about 600 yuan.”

“After deducting production costs, tariffs and corporate income tax, and deducting channel expenses, publicity expenses and logistics expenses, the net profit is about 40 to 50%.”

Isaac Cameron couldn't help exclaiming, “If all European and American countries take it, wouldn't it be possible to double it?”

“Yes.” Liam Weaver explained, “Many European and American countries have stricter approvals for overseas imported drugs, and we need to issue a relatively complete pharmacology.”

“Experimental and clinical trial data, and even pharmacokinetics, also require us to provide detailed data.”

“The most troublesome thing is that they need us to publish the prescription.”

“We are still mediating with the local authorities.”

Charlie faintly said, “It is absolutely impossible for Oracle Pharmaceutical's prescription to leak out.”

“They don't even have to think about it.”

Liam Weaver said somewhat embarrassed, “But Master Wade...If the other party insists, if we don't agree, the other party would not approve the listing of our drugs in their country.”

Charlie asked, “Is there no special case for this kind of policy?”

“Yes , there are...” Liam Weaver explained, “If it is a higher mortality rate Specific drugs related to major diseases can be specially approved in some cases, but they are basically for serious diseases with high mortality such as cancer, cardiovascular and cerebrovascular diseases, or for chronic diseases such as diabetes that require long-term medication.”

“If there are special medicines in these areas, they will usually open a mouth and let the medicine in first.”

At this point, Liam Weaver said embarrassingly, “But our Nova Dias cannot reach this level of urgency.”

“After all, we belong to conditioning.”

“The type of stomach medicine is more to solve the symptoms of patients with chronic or sudden stomach discomfort and indigestion.”

“These are not serious diseases.”

Charlie nodded and asked him, “Which countries have not go in?”

Liam Weaver said, “The largest unentered market is the United States.”

“The US FDA’s requirements are indeed too strict and the process is very cumbersome, so it is more difficult.”

“However, his two neighbors, Canada and Mexico, have entered smoothly.”

“As for Europe, The biggest ones that have not yet entered the market are Germany and the United Kingdom.”

At this point, Liam Weaver exclaimed, “In fact, the three countries of the United States, the United Kingdom, and Germany have great potential!”

“Moreover, the alcohol consumption of these three countries are all very high, so their people are more likely to have stomach discomfort.”

“The demand for all kinds of stomach medicines is also the highest in the world.”

“If our Nova Dias can successfully enter these countries, then I expect our annual sales will exceed 200 million boxes!”

“Among them, the domestic market accounts for about 30-50 million boxes, and the rest is in the overseas market.”

“In that case, the sales will be around 100 billion, and the net profit will be about 400 million boxes.”

Isaac Cameron couldn't help exclaiming, “One medicine sells 100 billion a year... This is too scary...”

Liam Weaver hurriedly said, “Mr. Cameron does not know that the sales of best-selling drugs in the world are indeed amazing.”

“In recent years, the global drug sales champion is almost 20 billion U.S. dollars.”

“Among the top ten, the lowest is several billion U.S. dollars.”

“Those world-renowned drugs, just take out one, and the annual sales are also 10 billion U.S. dollars. 100 million U.S. dollars or more.”

After speaking, Liam Weaver added, “Our country’s gastrointestinal drugs alone cost more than 50 billion yuan a year.”

“Combined with the relatively low drug prices in our country, the annual sales of global gastrointestinal drugs are estimated to be About 500 billion yuan, and our Nova Dias, itself is the best one, and the price sold overseas is a super premium, so if you can enter the world, it will sell 100 billion yuan a year. It’s not difficult.”

Don Albert couldn’t help sighing, “No wonder it is said that the pharmaceutical industry is the most profitable.”

“This revenue capacity, the money printing machine may not be able to catch up!”

Isaac Cameron laughed, “Don Albert, the pharmaceutical industry has to make money to stimulate and develop more and better drugs.”

“You have to know that the average life expectancy has increased so quickly in the past few decades.”

“A large part of the reason is that they are actually supported by various special drugs.”

“Yes.” Liam Weaver also agreed, “The continuous improvement of medical standards in recent years is a very important reason for the dramatic increase in life expectancy.”

“Many diseases were terminally ill decades ago, but they have been gradually overcome by modern medicine.”

“No matter whether it is medical treatment or drug research and development, they have made great contributions.”

“This is the key to why I personally have a huge enthusiasm for the pharmaceutical industry!”

Don Albert suddenly interjected, “Oh, yes, I heard that now cancer can be conquered?”

Liam Weaver shook his head and smiled, “It’s just that there are some new treatments, including the latest immunotherapy and cell therapy, but they are still far from conquered.”

“When will the treatment of cancer be like treating ordinary infections is as simple as that is called complete conquering.”

Don Albert said with a smile, “I think that with the speed of scientific development now, the conquering of cancer should be fast too!”

Liam Weaver said with a serious face, “Actually, I personally think that cancer is not so optimistic with conquering.”

“However, I think that through special drugs and targeted drugs, gradually turning cancer into a chronic disease and allowing patients to live with cancer for a long time will be a general direction for cancer treatment in the future.”

Speaking of this, Liam Weaver said with a look of longing, “Think about it, if the future treatment of cancer can be the same as the current treatment of diabetes, as long as the patient is maintained with drugs, a relatively long survival time can be guaranteed.”

“That is a huge victory in the field of human medicine.”

After speaking, Liam Weaver went on to say, "If any pharmaceutical company can develop such a special drug, no matter in any country, it will become the most popular and loved company among the people!"

Charlie heard this and asked him curiously, "Liam Weaver, if any company can really produce such a special drug, will those countries still have so many requirements for the inbound sales of drugs?"

Hearing Charlie's question, Liam Weaver said almost without thinking, "Master Wade, if anyone can develop such a drug, I am afraid that any country in the world will desperately invite their products to sell in their own country..."

After a pause, Liam Weaver said, "Moreover, if the production capacity of this drug is not enough to support global demand, then I believe that many countries may even fight for drug quotas!"

Chapter 3569

Hearing Liam Weaver's words, Don Albert on the side couldn't help sighing, "If one day can really conquer cancer, it will definitely be the gospel for all mankind!"

When it comes to this, Don Albert said sadly, "Hey...my mother back then. It was because of cancer that she died, and I took her to seek medical advice everywhere, but she still failed to survive for two years."

"In the last half year, she suffered more than she suffered in her entire life."

"If she put it aside until now, Maybe she can live a few more years..."

Liam Weaver said, "Yes, the speed of medical development is still very fast, there are more and more treatments options for patients."

However, Liam Weaver turned around and said, "However, cutting-edge treatment technologies are generally very expensive."

“For example, the latest cell therapy program costs about 200,000 US dollars per treatment, and it is not 100% effective.”

“The medicines spent in the field of oncology alone are worth more than 200 billion U.S. dollars each year.”

“This is only medicines and does not include the costs incurred by other treatment methods such as surgery, radiotherapy, and interventional therapy.”

Don Albert sighed, “In the world, ordinary people have worked so hard to earn so little money all their lives, and if they get a serious illness, they will all contribute.”

Isaac Cameron said seriously, “Don Albert, you can’t say that.”

“The so-called money is precious, and the price of life is higher!”

Charlie kept frowning and said nothing.

What Liam Weaver said just now gave him an inspiration.

In fact, many rules seem unbreakable, but as long as the weight on the other end of the balance is heavy enough, the rules will be changed.

If it can really develop a specific medicine for effective treatment of cancer, I am afraid that any country in the world will not hesitate to introduce it into the domestic market.

However, even in the “Apocalyptic Book”, there is no ordinary prescription that can really cure cancer as

a disease.

In other words, if you want to treat cancer, at least you have to use a medicine of the level of Enchanted Pill.

Wanting to rely on some common Chinese herbal medicines to completely cure cancer is simply a dream.

The Enchanted Pill has gone beyond the scope of ordinary Chinese patent medicine.

Because it can not be produced as long as the medicinal materials are prepared according to the prescription.

Chapter 3570

If you want to refine this kind of pill, you must use aura as a medium, and use the method of alchemy recorded in the “Apocalyptic Book” to refine the essence of the medicinal materials little by little, and then use the aura to further sublimate and change the essence of the medicinal materials.

And finally condensed into a pill.

If the aura is missing, the medicinal properties may not even reach 1%.

In this kind of elixir, the importance of aura is much more important than the medicinal material itself.

This also means that whether it is a Life-saving pill or a rejuvenating pill, as long as it is a pill that requires aura refining, it cannot be mass-produced on the assembly line.

Even if Charlie didn't do anything all day long and tried his best to refine the Life-Saving Pill, he might be able to produce hundreds of them in one day.

Therefore, Charlie currently does not have the ability to let Oracle Pharmaceutical produce this medicine in batches.

Thinking of this, he couldn't help feeling regretful.

The production of medicines is naturally for the purpose of making money, but also for the benefit of society.

If there is any way in the future to bring the Life-Saving Pill to the production line and realize mass production, it is really possible to realize the vision that Liam Weaver just now.

However, this idea can only be regarded as a good wish so far.

If he really want to realize it, I am afraid that he has to see if there is a better chance in the future.

However, Charlie suddenly thought that the medicinal effect of Enchanted Pill is very strong.

As long as people still have a breath, this medicine will definitely be able to save life, and most injuries and illnesses can be completely cured.

If this is the case, it is better to dilute its ingredients to make a specific drug that can control cancer immediately.

If taken by tumor patients, it can effectively inhibit tumor development.

Long-term continuous use can not only inhibit tumor development, but also It can also make tumors slowly shrink, allowing patients to survive long-term stably.

This kind of medicine has many advantages compared with the targeted medicine of western medicine.

First, there are too many types of targeted drugs, and most of the targeted drugs can only treat one type of cancer.

Using the diluted Life-Saving Pill, almost any cancer can be treated, even other diseases are effective.

Second, targeted drugs will quickly develop resistance.

Once they develop resistance, they will lose their therapeutic effect.

However, the components of Life-Saving Pill will never develop resistance.

In other words, if cancer patients can continue to take it, not only will they hope for a complete cure, even if it cannot be cured, they can also achieve the long-term cancer-carrying survival that Liam Weaver just said.

If the calculation is based on the method of taking one pill per day for cancer patients, then even one pill contains only one thousandth of the Life-Saving Pill, it must be sufficiently effective.

Therefore, he immediately said to Liam Weaver, "I have a prescription that can control cancer, but this prescription needs to add Life-Saving Pill as a medicine, so the production capacity may be very limited."

"After I make it, you can take it first."

"Some samples can be sent to the United States, and they can be given to their relevant departments."

“Tricked them into saying that this is a cancer-specific drug that we are developing and will be fully marketed.”

“If they speed up the approval of it, then they will follow Oracle Pharmaceutical in the future.”

“All of its products will abandon the U.S. market!”

“Frighten them and let them measure it by themselves.”

When Liam Weaver heard that it was a Life-Saving Pill, he immediately knew that it was the magic medicine that Graham Quinton, Zeke White, Jasmine Moore, Dr. Simmons, and Don Albert had all received before.

Now, when he heard that Charlie wanted to use this magical medicine to make a special cancer medicine to scare the Americans, he immediately understood Charlie’s intentions.

He hurriedly asked Charlie, “Master Wade, what are you going to call this medicine?”

“Even if it is a sample, I have to let someone design a reliable package, so that the credibility will be higher.”

Charlie nodded and smiled, “Once this medicine is taken out, it definitely has the effect of regenerating new life for ordinary people, so it’s called Healing Salve!”

“Oracle’s Healing Salve...” Liam Weaver couldn’t hide his excitement. Said, “Master Wade, I will arrange the design team to produce the packaging immediately after I go back!”

Charlie said, "I am going to make a hard round pill with a diameter of about one centimeter."

"You design it into seven pills. One box is just one week's worth."

"Okay!" Liam Weaver said hurriedly, "I will make samples for you these few days! "

"Okay." Charlie said with a smile, "I guess this is the case."

"At most, I can get a few thousand boxes of the medicine."

"Except for a small part of it to stimulate the relevant departments of those western countries, the rest will be given to the severely ill patients in China who have more difficult families."

"You can engage in a free drug donation event for Oracle Healing Salve Pills."

"It is said to the public that this is our latest research result."

"This can also enhance the reputation of Oracle Pharmaceutical."

Liam Weaver asked, "Master Wade, your Oracle's Healing Salve Pills, do the formulas need to be patented?"

"I'm afraid that Western countries and pharmaceutical companies will find ways to figure out the ingredients in the first time after they get them."

"If the patents are not registered, there may be risks in the future."

Charlie nodded, "Okay, I will give you a prescription when the time comes."

"You will register the patent for the prescription in advance."

Then Charlie said to Liam Weaver, "In addition to this Oracle Healing Salve Pill, I have another one that can be mass-produced."

"A new prescription that can effectively protect the liver. I will give you the prescription later. You can register a patent."

"As for the name of the drug, it is called Lucent Pill."

Liam Weaver surprise, said, "Master Wade, the liver tablets, it should be is what you said before, the Liver Health prescription, right?"

"Yes" Charlie nodded and said, "It is necessary to make this kind of conservation-type medicine."

"It is half-curing and half-healthy, and the audience is also larger."

"The combination of a stomach powder and a liver protection tablet is definitely a combination of good medicines for the people at home!"

The Amazing Son-In-Law

Chapter 3571-3574

Chapter 3571

Charlie knew very well that if he only hoped that Healing Salve Pills could cure cancer, he would only

need to refine a batch of Life-Saving Pill, and then let Liam Weaver use corn starch to dilute it at a ratio of one-to-thousandth of the effective ingredients.

Corn starch itself is the most commonly used diluent in the pharmaceutical field. In western medicine tablets, the effective ingredient of one medicine is sometimes less than one gram, and the rest is almost entirely dependent on corn starch as an auxiliary material. It is safe and non-toxic, and there is no side effect of it.

And if this is the case, there is no need to register any patents for the prescription.

After all, the medicinal effect of Healing Salve Pill relies on the quenching and sublimation of aura. If there is no aura quenching, its medicinal power is completely the same as that of ordinary medicines such as Nova Dias.

Even if the top pharmaceutical companies use the most advanced equipment to study its ingredients, it is impossible to make any breakthroughs in production, and it is impossible for the efficacy of the medicine to reach the level of Healing Salve Pill.

However, Charlie felt that any cancer patient, no matter what cancer he had, would definitely face the same dilemma, that is, a sharp decline in physical fitness.

Many patients with advanced cancer are not only skinny, but also very difficult to walk and talk.

The reason is that the vitality and nutrition of the body are almost squeezed out by cancer cells.

Some severely ill patients are even so poor that they cannot receive chemotherapy or surgery at all.

If the cancer cells can be controlled and the patient's physical fitness can be improved at the same time, the effect of the treatment will naturally be doubled.

Therefore, Charlie decided to find a better Qi-invigorating prescription from the “Apocalyptic Book”.

At that time, use this Qi-invigorating prescription as a diluent for Healing Salve Pill.

However, there are too many prescriptions for tonic in the “Apocalyptic Book”.

Charlie searched in his mind for a long time, and finally he found a most suitable prescription.

This prescription is called Spirited Powder, which was a secret that was not passed down back then.

It has a very good nourishing effect on patients with weak qi and blood. It is an ancient medicine specially used by ancient imperial physicians to replenish vital energy for patients with insufficient qi and blood. The effect is very good.

So, after eating, Charlie wrote the prescriptions of Healing Salve Pill and Lucent Pill to Liam Weaver.

After Liam Weaver got the prescription, he immediately began to apply for a patent, and at the same time, he planned to organize a highly confidential team to conduct drug trial production.

Charlie told him, “Spirited Powder must be boiled into a medicinal soup, and then the medicinal soup must be air-dried and prepared into a powder. After the powder is made, it will be sent to me to the Champs Ely’s Hot Spring Villa. I will be there making medicinal powder into Healing Salve Pill.”

Chapter 3572

After that, Charlie said again, “After Healing Salve is made, you take it to the United States as soon as possible. You must find a way to meet the person who is directly responsible for the approval of drug import and hand over Healing Salve Pill to the other party. If the other party still doesn’t buy it, just give it to him. If other drugs from Oracle Pharmaceutical are not allowed to enter the U.S. market smoothly,

then Healing Salve Pills will completely abandon the U.S. market.”

Liam Weaver hurriedly asked, “Master Wade, if they agree to give Healing Salve Pills the green light in exchange for Healing Salve Pills to be marketed in the United States, what should we do? After all, like you said, Healing Salve Pills are also difficult to mass produce in the true sense...”

Charlie smiled and said, “Don’t worry about this. We will say that our production process is very tedious and complicated, and we have not been able to find a breakthrough, so mass production can not be achieved. By then, we will give them hundreds of boxes every year. They have no way to say anything if they want to.”

Liam Weaver immediately said respectfully, “I understand Master Wade, don’t worry, I will go back to arrange trial production later, and call you as soon as it is made! When Healing Salve is finished, I will take it with me personally to America!”

After all, Liam Weaver looked at the time and said eagerly, “Master Wade, if you have nothing else to order, then I will go back to the factory to arrange work now!”

“Okay.” Charlie nodded in satisfaction, and said, “Then you hurry up and get busy, I won’t keep you.”

“Okay Master Wade! I’ll leave first!”

Liam Weaver carefully collected the prescription and left in a hurry.

After Liam Weaver left, Isaac Cameron said to Charlie, “Master, during this period of time, Liam Weaver’s progress is visible to the naked eye. Not only is his logic clear and methodical in his work, but he also appears more confident. Compared with Liam Weaver, it’s a world of difference.”

Charlie nodded and smiled, and said in agreement, “Liam Weaver has been in the Weaver family for so many years, and he has been able to bear the humiliation. Now that he has such a good opportunity, he

will naturally burst out with stronger motivation.”

At this time, Don Albert received a push from a news app on his mobile phone, and he blurted out subconsciously, “Master, the news said that Helena’s coronation ceremony will be held soon!”

As soon as the voice fell, Charlie and Isaac Cameron’s mobile phones also received multiple pushes one after another.

These notifications are almost all sent by major news platforms and Internet platforms across the country. The content and the title are almost the same, “The new Queen of Northern Europe, Helena Iliad, will be officially unveiled at the Nordic Palace!”

Charlie realized that Helena, who is as far away as Northern Europe, should take a carriage from the palace to the cathedral to receive the coronation!

And Helena, as the first new queen to be enthroned in the past 30 years, has attracted the attention of the world. Even in China, many netizens are eagerly paying attention.

After all, a young and beautiful queen like Helena is rarely seen in history, so she is very desirable in terms of appearance and identity.

It is precisely because of this that her coronation ceremony today has received eager attention from all over the world.

Charlie opened a video software, and the open-screen advertisement wrote the words on the live broadcast of the coronation ceremony of the Queen of Northern Europe.

Charlie clicked in directly from the advertising spot, and the screen loaded up, which was the front entrance of the Nordic Palace.

At this time, the host's voice came, "According to the coronation ceremony process announced by the Nordic Royal Family, in another five minutes, which is eight o'clock in the morning in Nordic time, the new Nordic Queen will be crowned. Helena Iliad, is about to set out from here and take the royal carriage to the Cathedral of Osu City!"

"On the spot, you can see that the gate of the palace at this moment has been occupied by the media from all over the world!"

"It is reported that there are more than 200 million people watching the coronation ceremony globally!"

"I believe that when the coronation ceremony officially begins at ten o'clock in the morning in Nordic time, this number will become 300 million, 400 million, or even more!"

"So according to the information released by the Northern European royal family, today all European royal families will send their direct representatives to participate in this ceremony, but we are not yet sure which royal family members will participate, and we will have to wait until the carriage arrived at Osu City Cathedral."

"Please keep your viewers on the news headlines, and we will continuously broadcast the entire process of the coronation of Queen Helena Iliad!"

Chapter 3573

At this time, audiences all over the world are looking forward to Helena's appearance.

More than three decades have passed since the coronation of a queen in the world, so the moment Helena, the new queen, is about to be coronated, the whole world is curious about her.

At this time, Don Albert and Isaac Cameron couldn't help opening the live broadcast of the video website. Both of them had seen Helena with their own eyes on Wade Mountain. They also knew that

the previous Helena was just a puppet who was helpless in the royal family and was used as a marriage tool by the royal family.

However, in the past few days alone, she has become the new queen, and this change is simply earthshaking.

And they are also very clear that the reason why Helena can completely reverse her life and reach the peak is all thanks to Charlie's blessing.

At this time, the host of the live broadcast couldn't help saying excitedly, "What you can see now is that the Royal carriage has slowly driven to the gate of the palace under the escort of the Royal Guard. It is said that this carriage has a history of more than three hundred years. The past eleven Nordic kings and queens have all rode in this carriage from the palace to Osu City Cathedral."

"According to some local media sources, the carriage began to be fully renovated half a year ago, and it was originally prepared for Princess Olivia Iliad, the last heir to the throne. Unexpectedly, the heir to the Nordic throne had a turnaround. Just three days ago, the current queen suddenly announced that she would pass the throne to Helena Iliad."

"Now there is still one minute before Helena Iliad's scheduled boarding time. Let's look forward to the demeanor of the new Queen of Northern Europe!"

As soon as the voice fell, it could be seen in the picture that several male escorts in red uniforms, bearskin hats and rifles were walking out in two teams from the palace.

The host said excitedly, "Audience friends, what you see now is the Royal Guard of Honor of the Nordic Guard. It can be seen that their honor guard costumes are very similar to those of the Royal British Guard. This kind of red uniform and bearskin hat costume has a history of more than two hundred years in the European royal family!"

"As soon as the Royal Guard of Honor appeared, it also heralded that Helena Iliad, the new coronation

queen, would also appear soon!”

As soon as she finished speaking, Helena, dressed in a white dress and a long skirt and dressed like a beautiful princess in a fairy tale, accompanied by several royal women, slowly walked out of the palace with solemn steps.

Helena, dressed up at this moment, is really beautiful. As soon as she appeared on the stage, she didn't know how many men's hearts had been captured.

And on her face, there is no longer the desperate panic and helplessness of being slaughtered before.

Instead, it is stronger than ever before.

Outside the palace, there were cheers.

Not only those Nordic people who are far onlookers are excited, but also these overseas media people are all excited.

The host couldn't help sighing, “Now there are almost all amazements of worship around me, and almost all these sounds are senior media people who have seen all kinds of ups and waves. It was the largest media in Britain that was broadcast live by me just now. Their host was just sighing, saying that Helena Iliad. Her special demeanor reminds him of Princess Diana in those years. Her grace and temperament are even better than Princess Diana!”

Chapter 3574

At this time, Helena stopped and stood at the gate of the palace, waving to the fanatical Nordic people from afar.

The live footage quickly zoomed in, giving Helena a full-body close-up. Helena is even more beautiful

under the close-up shot.

At this time, the host couldn't help sighing, "I have to say that Helena Iliad is so beautiful that everyone at the scene was shocked by her beauty. You can imagine how happy the Nordic people are at this moment!"

At this time, the camera noticed a brooch worn by Helena on her left chest, and then the lens quickly zoomed in and gave the brooch a close-up.

At this time, the host said, "Audience friends can see that the current camera is a close-up of Helena's brooch. This should be a leaf made of gold, which looks very exquisite, and at the bottom of the leaf, two letters are also spelled with small diamonds, C and W."

With that, the host said again, "I think this should have extraordinary significance for Helena Iliad. As for the letters C and W, it is very likely to be the abbreviation of the name, just like Michael Jackson for MJ, but I don't know whether this CW is an abbreviation of a name? But to be sure, if this is really an abbreviation of a person's name, then that person should be very important to Helena Iliad.

Speaking of this, the host laughed and said, "I believe that all viewers in the West should be curious about what CW represents at this moment. If it is really an abbreviation of a person's name, I guessing about the two letters CW may become a hot topic on Western social media in a few minutes!"

At this time, Isaac Cameron and Don Albert both looked at Charlie at the same time.

Others can't think of what these two letters represent, but Isaac Cameron and Don Albert can see at a glance that this must represent Charlie.

Combined with this brooch itself, it is the shape of a leaf, which just represents Charlie's surname, so it is even more stone hammer.

Charlie didn't expect that the brooch that Helena told him to pay attention on the phone turned out to be a leaf representing her surname and the pinyin initials of her name.

In his opinion, Helena is cautious and should not make such a small colored egg on such a big occasion, because it will definitely a lot of suspicion from the outside world, which is definitely not a good thing for her.

What's more surprising is that Helena stood in front of the palace and waved to everyone several times. After kissing her right fingertips gently, she gently covered her fingertips on the brooch on her chest!

The media at the scene exploded immediately!

Sensitive media people have speculated about Helena's real intention of this move, and the Chinese host couldn't help sighing, "Everyone should have seen Helena Iliad's action just now. If I guess correctly, she should be kissing her brooch indirectly!"

"You know, she is now witnessed by hundreds of millions of audiences around the world!"

"Doing such a move without hesitation at this time is enough to show that this is of great significance to her!"

Isaac Cameron looked at Charlie at this time and said with a smile, "Young master, Helena should confess to you..."

Charlie shook his head helplessly and said, "If that's the case, it only shows that she can't figure out which is more important. On such a major occasion of the coronation of the new Queen, how can she take such a risk to do such careful thinking? The gains outweigh the losses..."

Don Albert smiled and said seriously, "Master Wade, it may not matter whether to coronation or not, ascend the throne or not for Helena. Taking this opportunity, it is most important to confess to you in

front of the whole world!”

The Amazing Son-In-Law

Chapter 3575-3576

Chapter 3575

At the moment, Western media and netizens have been fried.

Everyone is speculating on why Helena chose to wear such a brooch on her chest on this very important occasion.

If two letters C and W really stands for someone’s name, then who is this person?

Temporarily, speculation on the Internet continues.

And even a lot of Chinese netizens are starting to confuse themselves.

However, because everyone assumes that if these two letters represent the abbreviation of a person’s name, then the person’s name must be an English name, so they cannot guess the correct answer at all.

Besides, except for those on Wade Mountain on the day of the festival, no one thinks that these two letters are actually stands for Chinese name.

At this point, the live continues.

Helena has boarded the historic royal carriage with the support of two royal servants.

Afterwards, under the escort of the royal guard, the carriage slowly left the palace and headed to Osu City Cathedral.

Along the way, people greet each other on the street, and enthusiastic fans shout out Helena's name.

The host introduces the moment, "It is understood that there is a total of seven kilometres from the palace to the Osu Cathedral, and Helena Iliad will board the carriage to complete this distance within an hour. According to official statistics, at least half a million people will witness this seven-kilometer journey. This is also a big test for Nordic officials."

Charlie heard this and realized that next hour maybe a picture of Helena sitting on the carriage, so she said to Isaac Cameron, "Isaac, take me to the Moore Group."

"Yes, young master." Isaac Cameron quickly agrees.

Don Albert also hurriedly stood up and said, "Master Wade, see you soon!"

Charlie left Heaven Spring Mansion and went to Moore Group. Helena is sitting on an open carriage, constantly reaching out to both sides of the road while people are waving.

Charlie keeps turning on the phone. After coming to the Moore Group, he turned it off for a while.

Jasmine Moore personally waiting in front of the Moore Group lobby.

Isaac Cameron stopped the car and Charlie stepped out of the car. Jasmine Moore steps forward and says respectfully, "Master Wade, here you are!"

Charlie smiled and said, "Why are you still down by yourself?"

Jasmine Moore looks very happy saying, "You're here, how can I wait at work, so of course I have to go down to meet you."

After speaking, she hurriedly gave a sign asking, saying, "Master Wade, please."

Charlie nodded and asked Isaac Cameron, "Isaac, after you parked the car, follow to Jasmine's office to discuss the auction."

Isaac Cameron said, "Yes, young master. You go up first, and I'll follow later."

So Charlie and Jasmine Moore came all the way to her office.

Once they entered the door, Jasmine Moore asked Charlie to sit on the couch, she couldn't help but start teasing Charlie, and said smiling, "Master Wade, have you watched the live stream of Helena's coronation ceremony?"

Charlie casually said, "I watched."

Jasmine Moore looks at him with a flowery smile and asks, "Master Wade, the brooch worn by Helena should show you love in the air?"

Charlie asked him without power, "Miss Moore, when did you become so sexually obsessed? It's not like you."

Chapter 3576

Jasmine Moore smiles lightly and seriously said, "I'm not the most sexually obsessed, when I saw the brooch in Helena's chest on the live video, sister Nanako called me and said we both have other rivals in love this time."

Charlie asks her, "Did you tell Nanako that I'm coming to your company?"

"Absolutely." Jasmine Moore said smiling, "Nanako asked me to ask you. At first sight, she felt that Helena showed you love, and I felt the same way she did."

After that, Jasmine Moore said with a rather ridiculous tune, "Master Wade, now the world is all guessing who this CW is, and it's predicted that this madness will continue for some time. You should keep a low profile recently, otherwise if people guess that you are CW, it will be a problem."

Charlie shook his head, a little helpless and said, "Let's talk about the auction."

Seeing that Charlie deliberately avoided this topic, Jasmine Moore wants to not ridicule too much, and seriously said, "Master Wade, this auction of Rejuvenating Pill, what are you planning to do?"

Charlie said, "I planned it to be held by the Wade family and Moore family together, and the place is Shangri-La Hotel."

Jasmine Moore rushed to ask, "Master Wade, if Wade family participated openly, would it bring unnecessary problems to your identity?"

Charlie said, "I only offer rejuvenating pill for this auction. I will not be participating in certain operations. Wade family and Moore family will appear in front of the stage at that time. And the Wade family never involved in antique auction, so I have to rely on you to bring out all the good things at the bottom of the box to support the scene."

Jasmine Moore smiles, "You can be sure, I'll take all the best collection!"

After that, Jasmine Moore ask again, "By the way, Master Wade, in the auction, do we still have to

mention your name? After all, Rejuvenating Pill is also made by you.”

“No.” Charlie shook his head and said, “I’ve been thinking about copywriting Rejuvenating Pill. You must tell them that the Moore family was entrusted by a mysterious seller in Aurous Hill to sell the rejuvenation pills for auction, and the Moore family worried that if they would do this auction, they would lack of energy, so you took the initiative to work with the Wade family. As for the mysterious seller’s identity, you tell them that you promised to keep it a secret.”

Speaking of this, Charlie will consider himself as the whole of the future auction and tells Jasmine Moore the layout in detail.

After listening to Jasmine Moore, she was grateful and shocked and said, “Master Wade, what you said is all valuable business secrets. Why you tell me so relaxed?”

Charlie said smiling, “People who are outsiders, some are keeping the business secrets, but for friends, even business secrets are fine.”

After a pause, Charlie continued, “I am very optimistic with this opportunity. You are a great friend to share with. I can’t eat all the dividends from Aurous Hill’s future development alone. I hope we can work together for a long time in the future and get what we need.”

Jasmine Moore said with gratitude, “Master Wade, I understand.”

Charlie nodded and smiled, and said, “By the way, the main reason why I want to join with you in the Rejuvenating Pill auction this time especially because I hope you can take your collections to participate in this auction.”

“There will be many rich people who are excited for the auction and auction collection boards will be more, and we, as organizers and commission extracts will be more and more.”

“However, I can give you a promise that no matter how long this auction takes, Wade family will only take care of the rejuvenating pill auction. As for the auction of other collections in the auction, all other collection auction in the auction will be carried out by you.”

“As long as you do enough. Well, I’m sure it won’t be long before your collection’s popularity in auction will surpass Sotheby and Christie!”

The Amazing Son-In-Law

Chapter 3577-3580

Chapter 3577

Charlie’s words made Jasmine Moore’s heart surging in an instant.

She has always wanted to make the collection trading and auction business bigger and stronger, but she has never found a suitable breakthrough.

It was also because she attached great importance to this business that she immediately became friends with Charlie after seeing Charlie repair her antiques with lost cultural relic restoration technology.

She originally hoped that Charlie could be recruited to work for the Moore family, but she could not expect that Charlie, who was just a son-in-law at the beginning, turned out to be the young master of the Wade family in Eastcliff, and his own strength was extremely powerful.

Therefore, Jasmine Moore’s wish to revitalize her antique collection through Charlie has long gone up in smoke.

Since then, her antique collection has not found a better development opportunity.

Although the collection industry seems to be too far away from ordinary people and rarely hears big

moves, it is a real windfall profit industry, and the market is very large.

The turnover of a big auction house may be as much as tens of billions. If there is a super hot model, the transaction amount is even higher.

Sometimes, just auctioning a painting can bring hundreds of millions of dollars in turnover to auction houses.

And the auction is also very profitable. Its profit method is generally divided into self-operated or commission.

Self-operated is nothing more than buying low and selling high, mainly picking up leaks in the traditional antique market.

Commissions are the main revenue channel for auctions.

Generally speaking, auction companies will charge commissions ranging from 5% to 15% on the auction items, and the more famous the auction company is, the higher the commission rate.

Under normal circumstances, if a famous painting is sold for a billion dollars, the auction will only draw commission to get a million dollars.

It is almost one billion yuan to convert it into dollars.

Therefore, the larger the auction house, the more likely it will be to make money.

An auction sold tens of billions of dollars, and the intermediary commission alone has more than a billion yuan in cash.

Such auctions are held twice a year, and billions of net profits will be earned.

Moreover, once the auction becomes bigger and stronger, the profits it can bring go far beyond commissioning, but also the overall improvement of the whole industrial chain.

Generally speaking, there will be multiple collection stores under the banner of a large auction house. Because the auction house is famous enough, their stores also have a lot of passenger flow.

This collection store not only operates and sells ordinary collections, but also provides fee-based identification services and paid in-store consignment for individual sellers and collectors.

Chapter 3578

Many collections that are not eligible for auctions but have certain value are closed privately in such stores.

Because the store is endless all year round, the turnover accumulated in a year is also huge, and the commission profit is no less than that of the auction.

However, this strong ability to attract gold is limited to a few top companies in the industry. When it comes to Jasmine Moore's collection, the net profit from year to year is not even less than one or two billion.

The reason why her antique collection can't do it, is not that Jasmine Moore doesn't work hard enough, but that her antique collection can't get good things in the true sense.

If there is not enough good things, there is no capital to be compared with those top auction houses at all.

When top auction houses auction Van Gogh, Picasso, Paul Gauguin, or Qi Baishi and Zhang Daqian, her antique collection can't even take out a painting with a transaction price of more than tens of millions.

The reason is that the popularity is not enough, and it is impossible for those big collectors to shoot things for her antique collection.

Jasmine Moore, who was struggling to find a good opportunity, was suddenly pulled by Charlie with rejuvenating pill, which made her deeply grateful to Charlie, and at the same time, she couldn't help but be excited.

This is because she knows the value of Rejuvenating pill. Maybe there is no collection in the world that can be compared with the top magic drug of Rejuvenating pill.

Therefore, she can almost foresee that the auction of Rejuvenating Pill will definitely set a historical record.

This is naturally a good opportunity for her antique collection to become famous.

It's equivalent to a third-tier star. Finally, she has the opportunity to perform on the same stage with the world's top star. It's definitely a good opportunity for chickens and dogs to rise to the sky!

Therefore, she said excitedly to Charlie, "Master Wade, don't worry, I will do my best in this auction!"

Charlie nodded and said with a little emotion, "Although your antique collection is the industry of your Moore family, it has extraordinary significance to me... So Jasmine, you must make your antique collection's reputation bigger and stronger, which is worth my fate with it."

At the beginning, in the antique shop, if his father-in-law Jacob hadn't overturned the antique vase, Charlie would never have had a chance to get the Apocalyptic Book.

If there weren't Apocalyptic Book, there would no Master Wade in Aurous Hill today.

Therefore, Charlie felt that her antique collection meant a lot to himself.

However, he didn't know that Jasmine Moore beside him had a misunderstanding when she heard this.

Hearing Charlie's exclamation, Jasmine Moore immediately rippled in her heart. Looking at Charlie's eyes, she was also like a pool of spring water and full of affection.

In fact, for Jasmine Moore, who has always loved Charlie deeply, she has long regarded her antique collection as one of the most important places in her life.

However, she didn't expect that Charlie also thought that her antique collection was of great significance.

This made her mistakenly think that Charlie's feeling was all caused by her.

At the same time, it also made her feel that she had loved Charlie for so long that she did not seem to be wishful thinking. At least Charlie also had his own place in his heart.

In addition to being moved, she couldn't help sighing shyly, "Master Wade... Thank you for making my antique collection so important... In fact, my antique collection means the same to me..."

Speaking of this, she looked at Charlie affectionately and whispered, "Master Wade, when I first met you, although I seemed to be the eldest daughter of the Moore family, in fact, I was only responsible for the business of my antique collection in the Moore family. At that time, I dreamed that I would one day become the head of the Moore family..."

“Until...until that day... I met you in the antique collection shop...”

“It is also because of meeting you that I can live to this day and have everything today...”

At this moment, Jasmine Moore’s eyes have burst into tears.

Her antique collection is just a little inconspicuous for Moore Group with a market value of hundreds of billions.

Jasmine Moore has long lost her parents. At the beginning, it was difficult for her to stand alone in the Moore family. What’s more, it was difficult for her to gain a foothold because of her uncle and cousin.

Therefore, at the beginning, the Moore family assigned the antique collection’s business to her, which was equivalent to using a little profit to kill her.

Jasmine Moore didn’t care about these at that time. She also knew that she was just a female streamer and had no parents to rely on. She was very satisfied that the Moore family could share the antique collection with her.

However, what she couldn’t imagine was that her life ushered in the biggest turning point in the antique collection shop.

That turning point is Charlie.

Without Charlie, she might have died in the original trapped dragon array, or at the hands of her uncle and cousin. How could she survive all the disasters safely and become the head of the Moore family today?

Charlie thought that when he mentioned the antique collections, Jasmine Moore choked to tears.

Seeing this, he thought that Jasmine Moore was feeling very emotional for the ups and downs in the past, so he hurried to comfort her, "The bad things are over. You are now the head of the Moore family. You still have to be stronger and look forward."

Jasmine Moore nodded quickly, wiping her tears, and smiled and said, "Excuse me, Master Wade, let you see the joke..."

Charlie smiled knowingly, "If I see you like this, I don't know what to think."

As he said, Charlie muttered to himself in surprise, "By the way, why has this guy parked the car for so long?"

At this time, at the Moore Group downstairs.

Isaac Cameron took a sip of cigarette, seeing that the cigarette had burnt to the butt, then raised his hand, looked at his watch, and muttered in a low voice, "It's almost 10 minutes, right?"

Thinking of this, he couldn't help but mutter, "Young Master and Miss Moore must have a lot of private things to say that they don't want me to hear. Leave more time for the two of them to be alone. I can't go wrong if I want to come."

After speaking, he immediately threw away the burnt cigarette butt in his hand, and took another cigarette out of his pocket and lit it again.

After smoking the cigarette, Isaac Cameron slowly went upstairs and came to Jasmine Moore's office.

He listened carefully at the door for a few seconds, and then boldly knocked on the door after noticing

any strange movement.

At this time, Jasmine Moore had already gradually recovered from the emotion just now, and when she heard the knock on the door, she hurriedly said loudly, "Please come in!"

Isaac Cameron opened the door and said politely, "Young Master, Miss Moore."

Charlie asked him in surprise, "Did you park your car back to Shangri-La Hotel? Why did you get up so long?"

Isaac Cameron chuckled hurriedly and explained, "No, I was answering the phone call as soon as I wanted to come up, so I was delayed for a while."

As he said, he hurriedly asked, "Master, how are you talking with Miss Moore?"

Charlie said, "Just talking about the auction, you and Jasmine will take the lead together."

"No problem." Isaac Cameron agreed without hesitation, and said to Jasmine Moore, "Miss Moore, I don't know much about the specific antique auctions, so this one may mainly rely on you. I will be responsible for the pre-publicity, software development, and launch. As well as the on-site support of the entire auction, the specific procedures and execution links of the auction, it is still up to you to check."

Jasmine Moore hurriedly said, "Mr. Cameron, you don't need to be so polite with me. It's always yours. I'm really ashamed."

Then, she said, "As for the specific process and execution of the auction, there must be no problem with my operation, but what I am most worried about now is the selection of the lot..."

Charlie asked, "Are there any specific issues in the selection of lots?"

Jasmine Moore said with a somewhat embarrassed expression, "I won't hide it, my antique collection's reputation in the Aurous Hill antique market is not small, but looking at the collectibles market across the country, it's only second and third-rate, so our customer resources and auction resources are not very good, and the collection resources that can be found are relatively average. When the time comes to set up a stage for Rejuvenating Pill to sing, I am afraid that some will not be on the stage..."

Chapter 3580

Speaking of this, she said again, "The current treasure of my antique collection's town store is an authentic painting of Mr. Qi Baishi, but that painting is not a masterpiece of Mr. Qi Baishi, so its market value is only eight to ten million or so..."

After listening, Charlie couldn't help laughing, "What am I supposed to be? It turns out that I was worried about this."

Jasmine Moore said very seriously, "If an auction is not up to the grade, it mainly depends on the value of the collection. Although the rejuvenation pill can definitely be sold at a sky-high price, if the other accompany lots are relatively ordinary, I'm afraid it will lower the grade of Rejuvenation Pill and discredit you, Master Wade..."

Charlie smiled and said, "This is a very easy solution."

After speaking, Charlie paused and said confidently, "When you promote the auction, add another antique collection information. Welcome all those who sign up for the auction to take out the most valuable item from your collection. Yes, it's also added to this auction."

Jasmine Moore said hesitantly, "Master Wade, those who can afford Rejuvenation Pills are probably the richest people in the world. I have heard that they will take out their collections to participate in auctions, unless it is some charity auction."

Speaking of this, Jasmine Moore said again, "But when they participate in charity auctions, it is impossible for them to take out the most expensive collections. Generally, they also take out collections ranging from hundreds of thousands to millions of dollars. The money was donated directly to the charity fund."

Isaac Cameron also agreed with his face and said, "Master Wade, those wealthy people buy collectibles, just like old ladies go to the vegetable market to buy cabbage. Set up a museum, then put all your products in the museum and display them to the public. It's really rare to hear that they are willing to sell the collection, not to mention you have to ask them to take out the most valuable one. I'm afraid they won't respond at all."

Charlie smiled and said, "This matter is not difficult. When the publicity begins, you will let the public out, saying that the organizer will select the 20 most representative collections from the registered collections for auction. At that time, all participants in the auction will have to vote by secret ballot on these 20 collections. At the end of the auction, the organizer will openly count the votes on the spot. The owner of the collection with the most votes will receive an additional quarter of rejuvenating pill!"

Speaking of this, Charlie said with a bit of contempt in his eyes, "The vast majority of wealthy people may not really understand art and collection. They just like to use sky-high collections to show their strength and wealth. Or use the collection to seek the appreciation of assets. Once there is a higher interest temptation, they will not care about the external objects such as collectibles, and they will definitely take out their most pressing things."

Jasmine Moore hurriedly said, "Master Wade...Even a quarter of a rejuvenation pill is extremely precious. Will it be a waste to use it in this matter..."

Charlie waved his hand and said, "If you want to make a big scene, this cost has to be taken out. Just imagine if the 20 collections we selected that day are all top art pieces worth more than 100 million U.S. dollars. Coupled with the last rejuvenation pill, then this auction is absolutely unprecedented and there is no one to come after. Once this auction comes out, I am afraid that for a long time, those top auction houses will be daunted. What more auction will be organized!"

The Amazing Son-In-Law

Chapter 3581-3584

Chapter 3581

Charlie, Jasmine Moore, and Isaac Cameron have booked the details of the auction, and they feel more at ease about this matter.

The next step is to wait for rejuvenation pill to make a little movement in the upper-class society in Europe and America, and then let the news of the auction go out.

At this time, Helena's royal carriage just arrived at the cathedral of Osu, the capital of Northern Europe.

This centuries-old cathedral is the largest and most magnificent church in Northern Europe.

The medieval architectural style not only has a strong Renaissance temperament, but also cleverly blends the baroque style.

It is the symbol of the Nordic capital of Osu Northern Europe.

Since its completion, this church has witnessed the coronation of many northern European kings and queens.

Today, it will usher in the youngest queen in Nordic history, Helena Iliad.

Under the gaze of countless people, Helena slowly got out of the carriage and, accompanied by several attendants, stepped onto the bluestone-paved path outside the Cathedral of Osu City.

Both sides of the trail were filled with flowers still condensed with dew.

The soldiers of the Royal Guard stood solemnly on both sides of the road with rifles in hand, watching Helena slowly walk in.

According to the royal process, Helena needs at least 5 minutes to slowly walk this bluestone road.

At the same time, she needs to turn around and stop for a while at the entrance of the church and wave to everyone.

At this moment, the cathedral of Osu City is full of royal families, nobles and celebrities from all over Europe.

The area of Europe is not large. Many countries that still retain the royal family have actually been intermarried with each other hundreds of years ago.

Basically, they are all related to each other, and even some of them have not produced five clothes until now.

Sitting in the first row of the church are almost all the immediate family members of the European royal family.

Among them, the most famous are Prince Philip of Britain and his princess.

This crown prince Philip is now over 70 and is the oldest crown prince in all of Europe.

Because the crown prince is only the title of the duke, his status is lower than that of the queen.

Even if Helena is more than forty years younger than him, he relies on representing the British royal

family to visit Helena, the new queen.

Chapter 3582

Although Helena hadn't come in yet, at this moment, from the side door of the front of the church, a gorgeously dressed old lady, accompanied by several attendants, stepped in.

When everyone saw the old lady, they suddenly let out a cry of exclamation.

Because this old lady is no one else, she is the queen of northern Europe today.

That is Helena's grandma.

She suddenly appeared here and surprised the guests in the whole church.

Just a few days ago, they had just received a secret letter from the Northern European royal family.

The secret letter informed the queen that her consciousness had been completely lost and her body was on the verge of death.

They even said that the death of the queen was only the last month.

This kind of secret letter was established in modern times by the entire European royal family.

The European royal family one or two hundred years ago was actually full of various intrigues.

Back then, it wasn't just two days or two times a day that several big European countries or a bunch of small countries fought back and forth.

Even if everyone counts up as relatives, they're really anxious, and no one cares about these blood ties.

However, since the imperial families of modern countries have surrendered their real power and implemented the constitutional monarchy system, these European royal families have lost the country and society, but have become unusually united and have a posture of holding together to keep warm.

Once a king or queen of any kingdom is in poor physical condition, or even near death, the royal family will send a secret letter to other royal families to let them know in advance and be prepared to come to mourning.

Moreover, it is generally the crown princes or prestigious princes who come to mourn.

Otherwise, if anyone happens to go abroad during this period, I am afraid they will miss the funeral.

So these people have always felt that the old queen of Northern Europe is about to die.

Changing the heir to the throne is probably a reflection before her death, but who would have thought that this old woman had walked into the church by herself at this time!

Although the state of the queen's walking is not enough to be able to walk, but as an old lady in her 70s, she is very stable.

Moreover, the queen's complexion was ruddy and her expression relaxed, she did not at all resemble a seriously ill person who was almost dying.

As the queen walked to the first row of people, Duke Philip was the first to recover.

He stood up with a shocked look and respectfully saluted, "Your Majesty, it's been a long time since I saw you."

"Your complexion is better than the last time I saw you. Time is not bad at all!"

The queen nodded slightly and said with a smile, "Philip, how is your mother and her elderly health?"

Philip hurriedly said, "She was a little unwell some time ago and is still recovering. After all, she is old. So it's slower to recover."

"Yes..." the empress exclaimed, "She is almost a hundred years old, it's really amazing."

At this time, other people looked at the queen, and still did not recover from their shock, because they found that the queen could not be sick at all no matter how she walked, talked, or behaved.

This was a bit too strange, even for her. It's impossible to recover from a serious illness so thoroughly all at once, right?

Some older people have begun to wonder in their hearts.

I don't know what method the queen used to recover so quickly.

Is there any major development in medical technology in Northern Europe?

However, all the old royal families, old nobles, and old wealthy people in Europe are all staring at the development of medicine in Europe.

Even many people sitting here have invested in many pharmaceutical companies and related scientific research companies.

If anything goes wrong, everyone must know all of them.

After all, this group of people is very old, and each of them is very rich and powerful, so the more this time comes, the more they will cherish their lives.

When they come out to meet friends on various occasions, they have long stopped paying attention to what the other person is wearing and what they are wearing, but most concerned about is the other person's overall appearance, in order to infer the other person's health.

If the other person looks good, you must break the casserole and ask to the end to see what health regimen he has.

At this time, he heard the old queen said to him very seriously, "Philip, I recommend a very miraculous oriental medicine to you and your majesty."

"The name of this medicine is called rejuvenation pill!"

The words came out, not only it was Duke Philip who was dumbfounded, and even the other people beside him who didn't speak were also shocked to speak.

Someone whispered to himself, "Rejuvenating pills? What is that? Oriental magic medicine?"

"Is it possible that the Queen of Northern Europe is cured by this magic medicine?"

Other people thought the same question.

At this time, the queen said, "I was already severely ill. The top experts in northern Europe have announced that I will not live for a month, and I will not be able to wake up, but my good granddaughter Helena, from the distant China brought me a quarter of a rejuvenating pill..."

Speaking of this, the empress increased her tone with a sigh, and repeated, "It's only a quarter! It's not as big as a broad bean!"

"It turned me back from the dead! The doctor checked my body and said that I can live for at least another five years!"

"This is simply the most amazing thing I have encountered in my life!"

"If it weren't for this magical medicine from far away China, I would even think it was a gift from God to me..."

The Queen voice of this sentence was not very loud, but this sentence, like a thunderstorm, caused a burst of noise in the church!

Chapter 3583

Western countries that believe in modern medicine naturally have some doubts and resistance to almost all oriental medicines.

And these Western high-ranking officials and aristocrats have enjoyed all the advantages of Western modern medicine.

Their doctors are almost all top figures in the Western medical field.

The latest, best, and most expensive medicines in the Western world are basically given priority to them.

It is precisely because they have enjoyed too many benefits that their basic knowledge of Western medicine is also very deep and clear.

Suddenly, they heard the queen personally say that an oriental magical medicine can bring her back to life with only a quarter of it.

The doctor even said that he can live for at least another five years.

Everyone's first thought was that this is ridiculous, they can't believe it.

However, seeing the queen standing in front of them in such a healthy body, a few doubts about it occurred in everyone's heart.

"Could it be...is this Oriental magic medicine really so magical?"

After all, when the Nordic Queen was seriously ill, they all learned about the Queen's specific condition through their own channels, and they all knew that the Queen's condition was in Western medicine.

It is hopeless and impossible to pass this hurdle under the foundation.

But now, the queen is standing here in good health, which is the best proof that she has not lied.

Prince Philip was very curious and asked, "Your Majesty, I want to know what kind of medicine is the rejuvenation pill you just mentioned?"

The queen solemnly said, "Philip, the rejuvenation pill is a magic medicine. Since it is a miraculous medicine, of course any disease can be cured."

“Just as the Bible says, holy water can wash away all evil!”

Duke Philip said embarrassingly, “But... but this logic is unscientific...”

“We all know that in this modern medicine, most of the medicines are specialized medicines to treat specific diseases.”

“Of course, there are a few medicines that can treat a variety of diseases, just like aspirin, which is called a panacea, but even aspirin, It is impossible for it to be able to cure any disease...”

Duke Philip’s words aroused the approval of others.

Because in their inherent knowledge, there can be no medicine that can cure all diseases.

Generally speaking, those who can say this kind of thing are either magic sticks or liars.

Faced with Duke Philip’s doubts, the queen smiled slightly, and said with a heavy lifting, “Philip, I know you believe in science and modern medicine. Have I ever been like you?”

Then, the queen sighed and said with emotion, “Do you know how painful I was during my serious illness?”

“Everyone thought I had lost consciousness and was completely unconscious.”

“Even the best medical team in our royal family used the best equipment to test.”

“Later, the same result was given, but did you know? I was not in a coma at all!”

Everyone was even more shocked when they heard this!

Duke Philip was stunned. After a while, he asked in horror, “You...you are not in a coma? But the news we received is that you have been in a severe coma for several days, so... I’m sorry, Your Majesty, I didn’t understand...”

The queen seriously said, “Let’s put it this way, the outside world thinks that I am unconscious because my body has no response, but in fact, my body is just completely out of the control of my consciousness, and my consciousness is still there.”

“My brain is functioning normally! I can think, remember, and hear the sounds around me, but as if I was sealed by a demon, I can’t control any part of my body, and I don’t even have the ability to open my eyes...”

Chapter 3584

Speaking of this, the empress looked scared and said, “That feeling is more helpless and painful than being in hell...”

When the people around heard this, all of them were full of fear.

They also thought that they might get sick in the future, they might become seriously ill or even die.

But they never thought that people would experience such loneliness and pain before death.

Wouldn’t it become the loneliest person in the world?

At this time, the queen said with emotion, "The Western medicine that you have believed in for so many years is also the Western medicine that I have believed in for so many years."

"At the most critical moment of my life, I could not judge my state at that time, so do you still think Western medicine is the best and most advanced?"

Everyone's expressions were shocking and speechless.

Philip was also frightened, with horrified thoughts, "In this way, those vegetative that we think have been brain-dead are likely to be in this state."

"It is very possible that their consciousness has been alive all the time, and then they are lonely."

"I have lived in my body for several years, even more than ten years..."

"Yes..." the queen nodded and said, "I never thought of this level before, but when I have personal experience, my opinion is similar to yours. It's the same."

After speaking, the queen said again, "But I was in that kind of desperation, and I heard the truth that my other granddaughter, Olivia, united with others to kill me!"

"Only then did I know that I was not seriously ill at all. It's poisoning!"

"And it's still poisoned by a drug that no one knows about!"

"If it weren't for my good granddaughter Helena, the miraculous medicine brought back from China after so many hardships saved me, I might still be imprisoned in my own body, waiting for the final arrival of death..."

Hearing this, many people became convinced of the empress's words.

Because, three days ago, she made a public announcement to the royal family.

The announcement stated that Olivia Iliad had been convicted by the royal family for conspiring with her fiancé William Rothschild and her family to murder the queen.

The royal family also announced the official flight out of Olivia Iliad's right to inherit the throne, and at the same time gave Helena Iliad the right of inheritance.

Everyone didn't quite understand at the beginning. They didn't understand why the Queen's serious illness had something to do with Olivia.

They didn't understand why the throne was suddenly given to Helena, who had already been deprived of inheritance rights.

Now, they finally put it all together.

The queen was seriously ill, which was actually caused by Olivia, and the reason Helena was able to regain her inheritance rights was all because of her meritorious service!

At this time, the queen continued, "As for why I firmly believe in this oriental magic medicine, it is because the moment I took the medicine, the consciousness immediately restored control of the body, and the toxic side effects caused by the long-term poisoning was swept away in an instant."

"At that moment, to me, it was like going from hell to heaven."

At this point, the queen looked at Philip with a dull expression and asked him, “Philip, listen to me, do you still believe in Western medicine?”

Philip said blankly, “I...I can’t tell...Although I didn’t mean to doubt you, I still think all this is really weird.”

“I can’t accept it for a while...”

The queen smiled slightly and said, “It doesn’t matter, this kind of miracle is true that only those who have experienced it can believe it.”

Having said this, the queen smiled heartily and said with joy, “Perhaps this also means that I am more favored by God than you.”

“Jesus once said that only those who believe can witness miracles!”

At this point, An elderly male royal member blurted out excitedly, “Your Majesty, if it is true that there is such a magical oriental medicine in this world as you just said, then I dare to ask you, can I also have a quarter?”

“My wife is terminally ill. The doctor said she has only half a year...”

The queen shook her head and said apologetically, “I’m sorry Malvin, Helena only brought back one part of the rejuvenation pill, although I really want to help you, but I can’t...”

The Amazing Son-In-Law

Chapter 3585-3588

Chapter 3585

The Queen's words not only made the royal family member named Malvin just now extremely regretful, but also the other people around her who paid attention to the queen were full of disappointment.

There is no doubt that the queen's emotional words just now have completely convinced these royal families and nobles about rejuvenation pill.

And after they believe that rejuvenation pill is true, their biggest idea is to find a way to get one.

After all, this magic potion that can bring back to life is simply the most precious existence for those who are rich and powerful.

However, the Queen's words completely shattered their thoughts.

But when they thought that rejuvenation pill could affect life and death, someone immediately asked unwillingly, "Your Majesty, how did Princess Helena find this rejuvenation pill?"

"Could you trouble her to tell me this channel and way?"

"I'll figure it out by myself!"

"Yes!" When the others heard this, they immediately came to their senses and quickly said, "Your Majesty! I also want to know where Princess Helena bought this medicine."

"If possible, I also want to buy some for later use."

The speaker is a great nobleman from England.

Not only does the family have hereditary titles and fiefdoms, but he has also been very successful in transforming into business over the years, worth at least 100 billion euros.

This person feels that the Nordic royal family does not have many assets in the first place, not to mention Helena.

If Helena can afford this kind of rejuvenating pill, then he can definitely buy more!

Hearing these people's inquiries, the queen couldn't help saying, "Gentlemen, you think about this matter too simply. If there is a place to buy this medicine and the price is clearly marked, then I will buy more after a lot of money."

Speaking of this, the queen's expression also became serious and sighed, "The key is that there is no place to buy this magic medicine at all."

"Helena got it entirely because of fate, so if you want to find this medicine, you can only hope on fate."

"Fate..." When everyone heard this word, they couldn't help but look at each other in consternation.

The people who can appear here are all the human spirits.

Although they talk about God every day, in fact, they are the most determined materialists in the world.

You know, the ancestors of these people either held the Bible in their hands and sailed to kill and looted Vikings off the European coast; or the invaders with the Bible in their arms and then opened the gates of other countries with duck slices and cannons; and even colonists who took the Bible to the African continent and directly captured the living people back as slaves.

Therefore, these people don't believe in fate at all.

So someone said, "Princess Helena is coming in soon. Can I ask her for details of rejuvenation pill before she is crowned?"

"Yes!" The others were immediately inspired and couldn't wait for Helena to appear.

At this time, Helena finally stepped into Osu City Cathedral.

According to the coronation process, Helena needs to sit on the stage in front of the church, and then the archbishop will preside over the subsequent coronation ceremony.

Therefore, accompanied by several attendants, she walked through the clean and straight red carpet step by step.

And the people passing by her also stood up one after another, saluting and even applauding her.

Chapter 3586

However, just as Helena walked to the front rows, the people around her asked one by one with their heads outstretched, "Princess Helena, where did rejuvenation pill come from?"

"Yes, Princess Helena! Can you tell us something?"

Helena was surprised. Suddenly, when she saw her grandmother smiling at her in the crowd, she immediately understood the reason.

So she took advantage of the fact that there was no media to follow her side at this time and said, "Gentlemen, rejuvenation is from China."

“This magic pill rarely comes out, so even in China, not many people know it. If you want to find it, you can only rely on opportunity and luck.”

“You can’t buy it with money. At least you can’t buy it yet. I can only disclose so much.”

With that, she stepped past the crowd and walked directly to the stage.

All these people below are muttering.

“China? There are more than one billion people in China.”

“How do I know who has rejuvenation pill?”

“That’s right... China has gone up, and the land area is not much different from that of the whole Europe.”

“Where can there be rejuvenation pill? How can I find rejuvenation pill?”

For a moment, the thoughts of each of these people sitting in the front rows were occupied by rejuvenation pill.

They just want to know how to get this kind of rejuvenating pill.

Soon, Helena’s coronation ceremony officially began.

At this time, the media also began to deliver live video signals to the whole world.

The royal coronation ceremony was grand and magnificent, coupled with Helena's dazzling pearl, which amazed the audience in front of all the TV sets.

However, they don't know why these guests and audience sitting in the front rows of the scene seem to be full of troubles and absent-mindedness, and have always been in a strange state of consciousness.

At this moment, they only think about one thing in their hearts, that is, how to get the mysterious and magical rejuvenation pill!

.....

At the same time, on the west coast of the United States.

Orion Exeor, a well-known Feng shui master in North America, also dialed his first call to promote rejuvenation pill for Charlie.

He called his best friend on this phone.

This friend is over ninety years old at this time.

Like Master Mai, since Orion Exeor left and returned to the United States, he has been eager to know how Orion Exeor has become twenty years younger.

However, Orion Exeor kept telling him that the secret could not be leaked.

No matter how much he asks, he never mentions a word.

On several occasions, the other party almost turned against him, and even directly threatened to get off, but Orion Exeor still didn't reveal a word.

The reason why Orion Exeor didn't say anything was that he was extremely helpless.

He himself is a half-knowing person, and he knows that his friend has no such chance at all.

What's more, after receiving Charlie's great favor, how can he turn around and leak Charlie's information?

Charlie was the only person he met in his life who had the power to give him such opportunity, so he knew very well that even if he died, he could not touch the reverse scales of the dragon.

Therefore, he could only keep silent.

Finally, a friend of him was so angry that he even gradually cut off contact.

Orion Exeor knew very well that his friend was about to go.

He had struggled all his life and had endless wealth. What he wanted most now was to live a few more years.

Therefore, seeing that he has changed so much, he is naturally extremely moved.

It is completely understandable that he failed to give him the answer he wanted.

Even Orion Exeor himself has always felt ashamed to face him because of his shame.

However, now Orion Exeor can finally disclose the news, so the first thing he thinks of is this friend!

Chapter 3587

This friend of Orion Exeor is named Ferdie Joules.

Ferdie Joules smuggled into the United States at age 18, and by the time he retired at age 80, he had created a business empire worth at least US\$ 400 billion, a legendary presence throughout the North American Chinese community.

However, this guy leaves no trace in Forbes rankings.

He is the super hidden rich man that the upper class people talk about in the West often.

Most of the funds that Forbes ranking can count are the founder and key shareholders of some registered companies, only assets of such people are hard to hide.

For example, Bill Gates, who has long dominated the world's richest man, has chosen to go public, so much of Microsoft's financial information should be revealed to the outside world, and his company's market value can be checked anytime in the securities market.

According to information, the number of shares Bill Gates has in Microsoft is also revealed to the public in the stock market.

So just by simple multiplication and division, you can tell what Microsoft shares are worth in his hands.

In addition, the number of companies listed under their name is basically public information. To find out

these companies, count them one by one, and finally total count, which is the estimated value.

This kind of thing can be counted by anyone who knows middle school math without Forbes.

However, there are still a large number of invisible rich people in the world, although they have countless industries, no company would choose to go public.

The reason why they aren't registered is because they don't want the outside world to know their identity and wealth.

Because once a company does not choose to go public, it has no obligation to reveal its income to the outside world, so the outside world has no way of knowing what the company values.

Moreover, most of them disperse their companies in some offshore areas around the world.

These places are as strong as Switzerland banks in protecting corporate information, so no one knows how much wealth they have.

Ferdie Joules meets Orion Exeor when he was young, and this friendship has lasted for over sixty years.

Besides his own efforts and abilities, Ferdie Joules' smoothness in commercial field has nothing to do with Orion Exeor's guidance.

In recent decades, the world has experienced many major changes, each of which represents great opportunities, and Ferdie Joules almost always receives dividends.

This also makes his relationship with Orion Exeor increasingly unmistakable.

Ferdie Joules fought until he was 80 before retiring. After he turned 80, he focused on seeking longevity around the world.

His longevity is not superstitious, but his achievements in life are too brilliant, so he is very reluctant to leave, let alone the courage to face death.

In fact, many entrepreneurs are as successful as they try their best to pursue longevity.

However, the way they pursue longevity is very different from the ancient emperor seeking immortality and asking for medicine.

Most of these entrepreneurs pursue longevity, and most of them start from science.

For example, the former richest man in China surnamed Chen has invested billions of dollars to study the human brain.

Many people say he invested so much money to study the brain, hoping to realize the human brain eternity.

Compared to Chen's richest man, Ferdie Joules is really lower on this.

Over the years, he has successively invested at least US\$ 2 billion in research funding in one of the world's most cutting-edge organ transplant research laboratories, to explore whether humans can achieve their lifespan-doubling goals through a large scale.

In his life, he has also undergone many organ transplants due to various illnesses.

As a regular person, after so many major surgeries, I'm worried he couldn't survive at 70.

Chapter 3588

However, Ferdie Joules was able to undergo so many organ transplant operations and still live for over ninety years. This laboratory has contributed a lot.

At the same time, he also invested in brain research projects similar to the richest man with Chen, hoping to store the human brain and human consciousness when cannot be restored, thus achieving longevity in consciousness.

Plus, he also invested no less than a billion dollars in scientific research cryopreservation technology.

The goal is to freeze one's body on the night of the human body's death, when other roads are unclear, and to melt and revive the body when longevity technologies ripe in the future.

Overall, he plans many directions for himself and hopes one of them will succeed.

It's unfortunate that the research he invested, despite certain scientific research results, is far from the longevity he wanted.

This is why he wants Orion Exeor's "Opportunity" so bad.

Precisely because of Orion Exeor's mouth so he doesn't trade with Orion Exeor for several months.

Suddenly received a call from Orion Exeor, which made him feel a little surprised for a while.

He didn't mean to answer the call, but he thought for a moment, but he pushed the answer button, and said warmly, "Hey, what's up?"

Orion Exeor was not surprised by his attitude, he smiled and said, "Ferdie, how are you today?"

"Not so good." Ferdie Joules hummed twice and said dissatisfied, "I'm dying. Doctor said my body function is almost over."

"Even if there is no illness, it may be natural at a time. I'm dead, unlike you, you found a way to be 20 years younger at once, but you don't want to share it with your friend!"

Orion Exeor said in shame, "Ferdie, I know you blame me in your heart. The reason why I didn't tell you about this too is because I had to fulfill my promise!"

"Your promise?" Ferdie Joules asks angrily, "Is your promise more important than our sixty-year-old friendship?"

"If I were you, I'd rather let myself bear the stigma of breaking my promises, and I'd also pull me off!"

Orion Exeor said without power, "Ferdie, you must understand that even if I tell you this opportunity, it will be of no use. If you can't get it, then your hard work will be in vain."

Ferdie Joules snorted cold, "Don't think I don't know the situation."

"Didn't you just go back to China for four years?"

"The opportunity you mentioned must be in China! If you still treat me as a friend just say a name! If you tell me who made you twenty years younger, I'll find him soon!"

The reason why Ferdie Joules is so confident is because he is too rich.

The richest Chinese on the Forbes list have no more than half of its assets.

Even Wade Family and Banks Family are strongest in China, their assets are not comparable to it.

Therefore, he just accepts that as long as he knows who gave this opportunity, he will surely let the other party give him the same opportunity.

Orion Exeor said with emotion, "Ferdie, the fate of some people is far above you. In front of such people, your confidence is no longer self confidence, but pride..."

After saying this, he sighed and said without power, "Finally, don't talk about this, don't you have to scold me again, don't you wonder how my opportunity appears?"

"Then I'll give you the point..."

Ferdie Joules on the edge of the phone just wanted to scold when he heard this, he took a deep breath and immediately asked happily, "You... do you really want to tell me?!"

Orion Exeor hmm, and said seriously, "I'm calling just to let you know that the chance I get is a miracle cure called Rejuvenating Pill."

"Only one that has improved my life for at least ten years. If you are destined with it, you can also have it."

The Amazing Son-In-Law

Chapter 3589-3592

Chapter 3589

“Rejuvenation pill?!”

Hearing these three words, Ferdie Joules was stunned for a few seconds and tentatively asked, “What is this? Medicine?”

“Yes!” Orion Exeor said, “Rejuvenation pill is a kind of medicine, a magic pill that integrates great magic powers.”

Ferdie Joules felt a little ridiculous and asked him, “What company produces this medicine? What ingredients?”

“What is the principle of medicine? What are the pharmacokinetics and clinical trial reports?”

Orion Exeor explained, “There is no company, the ingredients are unknown, and the principle of drugs is not something that people like me can understand, let alone pharmacokinetics and clinical trials.”

Speaking of this, Orion Exeor said, “By the way, in terms of pharmacodynamics, I can tell you through my personal feelings that after this magic medicine enters your body, you will feel that time flows back in your body, so that you can find the state your body was ten years or even twenty years ago.”

“As for clinical trials, I am an example of clinical trials.”

When Ferdie Joules heard this, he felt more and more mysterious. He immediately said, “Orion, Orion, are you making fun of me?”

“I’m ninety years old! Now you’re telling me that you jist found a magical medicine? Do you think I haven’t seen Journey to the West?”

Orion Exeor said with a smile, “How do you know that there is no kind of pill in the world?”

Ferdie Joules said dissatisfiedly, "Isn't the so-called pill just some fairy tales and rumors recorded in feudal superstitions?"

"Do you think of me as a three-year-old child to believe this..."

Orion Exeor gradually became serious and said, "Ferdie, I'm not kidding. I can increase my life expectancy for ten years in vain."

"It all depends on this amazing rejuvenation pill."

"When I take it, the feeling of reincarnation is unforgettable!"

"If you also want to find an opportunity to prolong your life like me, the only thing that can help you is rejuvenation pill."

"As for the medical research you invested in, I can clearly tell you that although they are very useful to society, they are useless to you. I believe you know this much better than I do."

As soon as Orion Exeor said this, Ferdie Joules was instantly speech-swarm on the other side of the phone.

He can't be clear about the second half of what Orion Exeor said.

Human brain research is done by many rich people around the world, including those young rich in the Internet industry, who also hope to realize the eternal life of consciousness through the interconnection of the human brain and computers, but so far there has been no real breakthrough in this field.

As for organ transplantation, after so many years of global medical development, although the level of organ transplantation has been greatly improved, people are not like a car or a machine, that every part can be replaced.

Therefore, even if organs can be kept young by continuous transplantation, the brain, bones, blood vessels, nerves, etc. cannot all completely replaced.

Therefore, organ transplantation can save the life of a patient when there is a lesion in one organ or multiple organs, but it is difficult to prolong the life of the patient.

A hundred-year-old body, even if you have a twenty-year-old heart, what?

It is likely that the blood vessels of the whole body have long been extremely fragile because they have reached their useful life.

It is likely that just a slight violent beating of the heart will cause intracerebral hemorrhage and rapid death.

Chapter 3590

Therefore, this road is not accessible at present.

As for freezing technology, it's even more nonsense.

There is no definite certainty that people can be resurrected after many years of freezing.

This plan is equivalent to putting the unknown problems aside and leaving them to the future to solve.

If there is a way to resurrect him in the future, wake him up from the freeze.

If there is no way to resurrect in the future, he may freeze until the end of the world.

It is also because there are no substantial breakthroughs in many directions of investment that Ferdie Joules is more eager for Orion Exeor's opportunity.

However, he never thought that Orion Exeor's secret sounded so ridiculous.

However, Orion Exeor's tone did not seem to be joking at all, so he looked up and asked seriously, "Orion, you and I have been close friends for many years."

"I just want to ask you, is this really the case?"

Orion Exeor said with great determination, "It is!"

Ferdie Joules fell into deep doubts and muttered, "This...how is that possible... No medicine can achieve this effect..."

Orion Exeor said, "I think this may be the wisdom left by my ancestors."

Ferdie Joules said seriously, "Orion, to tell you the truth, I really don't dare to believe it..."

With that, Ferdie Joules hurriedly explained, "I have invested a lot in the pharmaceutical industry over the years."

"I really know a lot about this industry. One thing I have a deep feeling is that traditional Chinese medicine is much behind Western medicine!"

“Not to mention that after so many years of development, traditional Chinese medicine has not been able to detect and treat tumors in the body.”

“The diagnosis of cancer all over the world relies on modern medical imaging technology and vivo detection.”

“Moreover, nowadays, all effective means to treat cancer are Western medicine.”

“Surgery is Western medicine, radiotherapy is Western medicine and chemotherapy. It’s more Western medicine,”

“As long as any traditional Chinese medicine doctor who can cure cancer, I have used various means to prove it, and finally proved that they are all liars without exception.”

“There is also organ transplantation.”

“The whole traditional Chinese medicine does not have any system and knowledge related to organ transplantation at all.”

“The only information that can be found about organ transplantation is the fairy tale, changing Zhu Erdan’s heart and changing his wife’s head...”

“So now tell me that there is a magic pill that can make people twenty years younger. I really... I really can’t figure it out...”

After listening patiently, Orion Exeor asked him, “Ferdie, you have always believed in the gossips of the Book of Changes left by your ancestors.”

“Why don’t you believe in the medical skills left by your ancestors?”

Ferdie Joules said embarrassedly, “I believe in the gossip of the Book of Changes because I have a master like you around me.”

“I have benefited a lot from you all my life. As a personal beneficiary, I naturally believe in the gossip of the Book of Changes, but the medical skills of my ancestors...”

“To tell you the truth, I have never had any personal experience that convince me...”

Orion Exeor smiled and said, “So, I said this is a great opportunity.”

“Rejuvenation Pill is not a common product, and no one can get it if they want it.”

“In fact, it doesn’t matter whether you believe rejuvenation pill or not. What matters is whether you are predestined with rejuvenation pill, otherwise even if you believe it, you have no fate with it, you still want it.”

Ferdie Joules hurriedly said, “That’s all! It’s better to kill the wrong than let go! Orion, I want to know how I can get this rejuvenating pill?”

Orion Exeor said indifferently, “I don’t know this. That’s all I can tell you. As for where rejuvenation pill is and how to find it, I can’t help at all. Everything depends on yourself.”

Ferdie Joules asked again, “Orion, can I bother you brother, please help me see the divination again and see if I have this fate with rejuvenating pill.”

Orion Exeor smiled softly and said, “I can’t figure this out.”

Ferdie Joules asked in surprise, "Between heaven and earth, is there anything you can't calculate?"

Orion Exeor said seriously, "I can't figure out if it is higher than mine."

Ferdie Joules said quickly, "Oh, no, didn't you say before that your lifeline is the python, and I'm the turtle."

"We are all a basalt, but neither of us is bigger than each other, so I'm not higher than yours..."

Orion Exeor smiled indifferently and said, "It's not that you are higher than me, but that rejuvenation pill is higher than me."

"Sow!" Ferdie Joules couldn't help swearing and gritting his teeth and saying, "Okay! Then I'll arrange someone to go back to China to see if I can touch the information of rejuvenation pill!"

Chapter 3591

At the same time, the cathedral of Osu, the capital of Northern Europe.

Helena, wearing a holy white queen robe, stood in front of the archbishop under the witness of the world, and began to accept the solemn and sacred coronation ceremony.

The elderly archbishop invited Helena to the throne in the center of the cathedral.

Many men and women wearing court costumes and holding scepters stood in an orderly arrangement on the stage.

And important roles such as the justices of the Nordic Kingdom, the deans of the coat of arms, and the ministers in charge, have also appeared on the stage in grand costumes.

After these people took the stage, they stood in four directions: east, west, south, and north of the church.

At this time, the archbishop chanted the prayers with the Bible, and then asked them one by one, "Gentlemen, I am here to introduce to you Helena Iliad, our new queen, and you will follow her from now on."

"Are you willing to be loyal and serve her?"

Everyone nodded without hesitation, and solemnly replied, "I do!"

The archbishop turned around and looked at Helena who was sitting in the center, and asked her, "Are you willing to solemn promise, here is an oath that you will rule all the kingdoms of the Nordic Kingdom and all the people above them?"

Helena said solemnly, "I do!"

The archbishop nodded and asked her again, "Are you willing to do your best to let law and justice be graciously enforced in all your judgments?"

Helena said solemnly again, "I do!"

The archbishop asked again, "Then, are you willing to do everything you can to maintain God's law and the teachings of the gospel?"

"Are you willing to do everything you can to maintain the doctrine established by the law and the power

that the law confers on bishops and clergy?”

Helena blurted out without hesitation, “I am willing to comply with all the above requirements, and do my best to fulfill all my promises, please God bless me!”

Afterwards, the archbishop personally put a brilliant crown on her head and handed a scepter made of the narwhal’s tusks into her hand.

At the same time, four other waitresses carefully draped a luxurious golden robe on her shoulders.

After doing all this, the archbishop respectfully said, “Your Majesty, you are now the new queen of the Nordic Kingdom, may God bless you, and may God bless the Nordic countries!”

Thunderous applause broke out on the scene.

So far, Helena’s coronation ceremony has officially ended.

From this moment on, she officially became the new queen of Northern Europe, and the old queen who had just spared no effort to promote the rejuvenation pill has officially bid farewell to the position of queen.

Helena on the stage, like a star holding the moon, is not only radiant, but also beautiful.

She holds a scepter in her hand and smiles, with sheer dignity and grandeur, which is very inconsistent with her age in her twenties.

It is this kind of indifferent and calm performance that has won her the favor of almost everyone.

At this time, Charlie sat in Jasmine Moore's office and watched all the live broadcasts.

Then he smiled knowingly, quit the live broadcast software, and sent a message to Helena.

The content was very simple, with only word, "Congratulations!"

At the same time, he also received a message from Orion Exeor.

In the message, Orion Exeor said that he had already informed some old friends and some major customers who had cooperated with rejuvenation pill.

Chapter 3592

The news has begun to spread in the top circles of the United States, waiting to be fermented.

Charlie replied with a thank you.

As soon as the message was sent, he received a reply from Helena and asked him, "Mr. Wade, is my performance okay?"

Charlie replied, "Your performance was perfect."

Helena asked again, "Did you see my brooch?"

Charlie replied, "I saw it, it's beautiful."

Helena replied, "This brooch is left by my grandmother. It happens to be a leaf shape, which matches your surname."

“As for the letters on it, I glued it by hand with diamonds.”

Charlie had to replied, “Thank you.”

Then, Charlie turned the subject away and asked her, “Your coronation ceremony has all ended?”

Helena said, “No, there will be a banquet soon, but the banquet If it is not open to the public, there will be no live media broadcast.”

With that, Helena sent another message, “By the way, Mr. Wade, grandma has already promoted the rejuvenation pill among the guests.”

“They are very fanatical, and they seem to be very enthusiastic about the rejuvenation pill. They are all very eager.”

Charlie smiled knowingly, what he wanted was this kind of effect.

This time we will cut an unprecedented piece of leeks, and the top richest people in Europe and the United States are the best targets.

As long as the promotion of them is in place and attract them to China, they will definitely spend money on bidding for Rejuvenation Pill.

Charlie and Helena exchanged a few more words, then Helena went to the banquet, and Charlie saw that it was 6 o'clock in the afternoon, and said to Jasmine Moore and Isaac Cameron, “The overseas promotion of Rejuvenation Pill has begun. I believe that in the future, many people will frantically search for related news about Rejuvenation Pill.”

“Before you prepare the official promotion materials for the auction, this matter should be kept secret as much as possible to prevent them from intervening prematurely.”

Jasmine Moore and Isaac Cameron quickly agreed.

Charlie said to the two of them again, “I have other things to be busy these days, and I have to promote the auction as soon as possible.”

Jasmine Moore said hurriedly, “Master Wade, don’t worry, I will definitely go all out!”

When Isaac Cameron saw that Charlie was about to leave, he asked, “Where are you going, Young Master? I’ll see you off!”

Charlie nodded slightly, and said, “Okay.”

After that, he said to Jasmine Moore, “Jasmine, we’re leaving. Call if you have any problems.”

“Okay Master Wade, I’ll send you off.”

.....

Getting in Isaac Cameron’s car, Charlie said to him, “Isaac, you can take me home.”

“Okay young master.” Isaac Cameron drove away from the Moore Group.

Charlie remembered about the Dragon Hall, and said to Isaac Cameron, “Isaac, let the Concorde airliner come over tomorrow night. I plan to go to the Middle East.”

Isaac Cameron asked hurriedly, "Young Master, it's for the prisoners of the Dragon Hall, as well as about the base?"

"Yes." Charlie nodded, and said, "It's just that I want to take prisoners and the land."

"The other party will definitely not agree easily. Many of these details have to be mediated face to face."

Isaac Cameron said casually, "Then I will accompany you over there!"

"No need." Charlie exhorted, "Negotiations should be very fast."

"It will take a few hours to fly over, and then a few hours after the talk is over."

"I can go back and forth on the same day. You don't need to be with me."

"During this time, you will concentrate on the auction. If you go back today, you will close all the room reservations from the end of this month for refund processing, and then prepare to arrange the venue."

"At that time, the on-site security work and security check must be done."

"On the auction day, no one other than the guests should be allowed to bring in any shooting equipment."

"When you enter the scene, you must ensure the privacy and mystery of this auction."

For the world's top richest people, most of them don't like it a lot, except for those who have bad brains all day long.

Even if they participate in auctions and auction collections worth hundreds of millions of dollars, they never reveal their identities, and they all participate in the auction by telephone commission.

No one else knows except the auction company knows who he is.

It is precisely because privacy can be superbly protected that these wealthy individuals are keen to buy collections at those top auctions.

In order to strengthen the scarcity of Rejuvenating Pill this time, Charlie asked everyone to buy them in person and take them on the spot in order to eliminate any proxy auction and reselling behavior.

Therefore, he must do a good job in the privacy of these wealthy people, otherwise, it will definitely bring them a very bad buying experience.

Since it is cutting leeks, of course, while cutting the leeks, it can also make the leeks feel at home!

The Amazing Son-In-Law

Chapter 3593-3596

Chapter 3593

This evening, the words "Rejuvenation Pill" caused a huge earthquake and sensation among the top wealthy circles in Europe and America.

The next day, Charlie received a message from Wesley early in the morning.

He has set up three forward bases on the northern coast of the Gulf of Aden.

The reason why the efficiency can be so fast has a lot to do with Dragon Hall's connections and reputation in the Middle East over the years.

Although they had just experienced a big defeat some time ago, it was rumored that they had eaten half of the Wade family, so in the eyes of the outside world, their strength is not only still not to be underestimated, but even better than before.

There are more wars in the Middle East, so these countries are also willing to have a good relationship with mercenary organizations like the Dragon Hall.

This will not only prevent the Dragon Hall from standing on the opposite side of them in the future, but also when they are in danger.

The opportunity to let Dragon Hall stand beside him.

Moreover, Wesley also used its connections to directly purchase a batch of weapons and equipment that had just been retired from active service, including three former Soviet-made helicopters with weapons systems removed directly from Saudi Arabia at a very low cabbage price.

In this way, it becomes a breeze to transport armed escorts by air directly from the coastal bases to board the ship.

The Wesley stationed three hundred Dragon Hall soldiers at these three forward bases, and from now on, they were able to officially begin escort work.

Charlie was naturally very happy when he heard the news.

He immediately gave Stella Scott's contact information to Wesley and asked him to contact Stella Scott directly.

From now on, the Dragon Hall will provide armed escort for all ships passing through the Gulf of Aden by BAIT Shipping.

Good news came from Wesley. When Charlie sent Claire to the company, Liam Weaver also called him.

As soon as the phone call, Liam Weaver said respectfully, "Master Wade, after nearly 20 hours of continuous trial production, our team has successfully trial-produced the Protective Tablets."

"In addition, you will use it as the base of Healing Salve Pill."

"The solid gold of the medicine has been trial-produced now."

"The original medicines of the two medicines are in my hands."

"When do you think I will be sent to the Champs Elys Villa?"

The location of the Aurous Hill factory of Oracle Pharmaceutical in the suburbs, it's a little closer to the Champs Elys Hot Spring Villa, so Charlie said, "Liam, you drive over now, and I will rush over there too."

"You will wait for me for a while."

"Okay!" Liam Weaver said without hesitation, "Master Wade, then I will set off!"

Charlie drove straight out of the city. After an hour, he finally arrived at the Champs Elys Hot Spring Villa.

At this time, Liam Weaver was waiting at the entrance of the hot spring villa carrying two very high-end mobile incubators.

When Charlie got out of the car, he greeted Liam Weaver directly, "Let's go inside."

After that, he opened the door of the villa with his fingerprints and took Liam Weaver directly into the villa.

In this villa, Charlie come here except for refining medicine, and his wife Claire has no time to toss here.

As for Elaine, his legs and feet are still unsatisfactory, and it is impossible to run here alone, so refining medicine here was perfect for Charlie.

When he arrived at the villa, Liam Weaver hurriedly opened the two mobile incubators, and then handed the two pieces of medicinal mud that were as big as bricks, black all over, and the temperature was around zero to Charlie, and said respectfully, "Master Wade These two are the medicinal mud we tried to produce . Take a look."

The prescriptions provided by Charlie basically need to be autoclaved in a reactor and then purified by a centrifuge.

The purified medicinal essence is this black medicinal mud with a strong medicinal fragrance.

Some pills are basically directly made into pills of different specifications with the mud.

If the medicine tastes too bitter, the medicine mud is generally dried first, and then the medicine is put on the production line, and the medicine is coated with a layer of sugar-coated tablets, such as the most common vitamin C tablets.

Charlie took some of the two medicine mud, crushed it at his fingertips and smelled it, nodded in satisfaction, and said, "The two medicines are done well."

Chapter 3594

"Remember to send a red envelope to the team working overtime when you look back."

Liam Weaver sighed in relief and hurriedly said, "Don't worry, I will give them red envelopes when I go back..."

After that, he said again, "By the way, Master Wade, the cost of this is too high."

"It is all precious medicinal materials. Just trial-produce this piece of medicinal mud, it cost nearly 100,000 yuan of medicinal materials..."

Charlie nodded and said earnestly, "This kind of tonic medicine has very high requirements on the medicinal material itself, and the cost is affirmative."

"If this medicine is brought to the market in the future, it will probably be the same as rejuvenating pills. Only those who are rich can afford it."

Liam Weaver sighed, "This is the law of business, and it is also the reality."

"It is like those luxury cars that cost millions of dollars."

"The cost materials and brand value are piled up there. They serve the wealthy. Ordinary people simply don't have the opportunity."

Charlie sighed, "It is indeed a business law, and there is nothing to do about it."

After that, Charlie said to Liam Weaver, "Liam, you should also try the Healing Salve Pill first."

"Make a batch and put it into the market as a high-end tonic of our Oracle Pharmaceutical."

"As for the price, it is natural to set a little higher."

"The domestic retail price must be more than ten times the estimated total cost, and abroad it will be more than twenty times. "

"After it is produced, you can give some high-end customers a try first to see their response."

"If they have a very urgent demand for this drug, then the price can rise appropriately."

This is not Charlie's heart. But the price of high-end medicines has extremely high premium ingredients, especially high-end tonics, which are outrageously expensive.

Although the popularity of Cordyceps has dropped a lot over the years, the price has not dropped at all. High-end Cordyceps is more expensive per gram than gold.

The same is true for things like ginseng and antler.

Liam Weaver naturally understood this business logic very well, and said to Charlie without hesitation, "Master Wade, don't worry, I will start to make a batch of samples immediately after I return."

After that, he busy said, "Master Wade, Healing Salve Pill is a big tonic."

“I suggest that we don’t make it into medicine. It would be better to make it into health care products.”

“The review system of health care products in countries around the world is much looser, and once we position it as health care for the product, we can not only sell it in pharmacies, but also in supermarket stores and online. In that case, the degree of freedom will be higher.”

Charlie nodded, “Just do what you said.”

Liam Weaver asked him, “Master Wade, what is the name of this health care product?”

Charlie thought for a while, blurted out, “Just call it the same, Healing Salve Pill! The herbal mud is thoroughly dried and powdered and then made into capsules for high-end health care.”

“The identity of the product goes on sale.”

Speaking of this, Charlie asked him again, “But let’s not cooperate with pharmacies or supermarkets.”

“After all, our products must be the best in their class. In addition, Oracle Pharmaceutical now has a lot of popularity.”

“There is no need to rely on other people’s sales channels.”

“Let others sell for us, not only to divide our profits, but also to bring us management risks.”

“Like some well-known liquors called national liquors, It’s fine for dealers to increase their prices.”

“The market is still full of fakes, and many people sell the fakes together, making the market miserable.”

“A bottle of 1499 liquor is already expensive, but it turns out that you can’t buy it at all.”

“If you want to buy it, you can only spend twice the price. This unhealthy model is almost entirely caused by dealers’ speculation, so we directly cut off dealers and only do direct sales!”

“At that time, we will open an online flagship store so that all users can order online.”

“In the future, there will be more varieties, and we can also open direct stores online, so that we can ensure stable terminal prices and eliminate fakes! “

Liam Weaver said without hesitation, “Okay Master Wade, I will immediately start working on the official flagship store online!”

Chapter 3595

Charlie has always hated the old-fashioned marketing model.

Not only the well-known liquor has many marketing problems, but even the model of traditional car 4S stores has been criticized.

As we all know, many 4S stores do not sell cars according to the routine.

Popular models have to increase by tens of thousands or even hundreds of thousands of them on the basis of the guide price.

Occasionally, there are unscrupulous 4S stores that pack damaged vehicles and accident vehicles into new vehicles for sale and pit consumers are miserable.

The reason is that this dealer model results.

In the past, transportation, logistics and sales channels were relatively primitive, so most of the products used this dealer model, but now with the continuous development of the Internet and the continuous rise of online shopping, the dealer model has gradually been eliminated.

Now everyone buys clothes, mobile phones, and daily necessities online, basically all of them are directly purchased online at the official flagship store.

Some of the more well-known health care products also mostly adopt this model.

This way of online direct sales can provide consumers with a relatively more complete guarantee regardless of quality, after-sales, price, and service.

Therefore, Charlie also hopes that Oracle Pharmaceutical can build its own direct sales model, so as to ensure the interests of Oracle Pharmaceutical itself and consumers in the face of more and more single products and higher and higher sales in the future.

Afterwards, Charlie said to Liam Weaver, "You sit in the living room for a while, and I will mix the Life-Saving Pill into the medicine mud in the room."

"After I finish it, you take it back and immediately start encapsulation."

"If the encapsulation is done, you will directly take it to the United States. "

"Okay Master Wade!"

Then, Charlie came to the room upstairs with the medicinal mud of Healing Salve Pill.

He estimated the weight of the medicine mud, and felt that such a big piece of medicine mud could make at least 5,000 pills, so he directly took out five Life-Saving pills and melted them with this medicine mud.

Although the Life-Saving Pill is not as effective as the Rejuvenating Pill, it can bring the body back to life, and even make the body younger for more than ten or twenty years, but it is also very effective in terms of treatment alone.

At the time when the old man, Jacob, was paraplegic at high position, Charlie only used half of a Life-Saving pill to heal directly.

From this, it can be seen that the therapeutic effect is not much worse than that of the rejuvenating pill.

But the effect of Rejuvenating Pill to prolong life is much stronger than it.

At the beginning, Orrin Sun had advanced pancreatic cancer and was about to die.

In fact, if he took a Life-Saving Pill, he could be cured, but his body would still be in a very serious condition.

It takes a long time to recover from a weak state.

But by taking the Rejuvenation Pill, it not only cure his cancer, but also completely recover his body, and even return to the state it was ten years ago.

The effect is naturally much better than the Life-Saving Pill.

However, Charlie did not intend to incorporate the Rejuvenating Pill into Healing Salve Pill.

Now, this medicine can completely maintain the life of cancer patients and gradually control the development of cancer until it is cured.

In other words, it is already considered an excellent anti-cancer drug.

After Charlie melted the medicinal mud, he gave the medicinal mud to Liam Weaver, and told him, "This piece of medicinal mud can be made into at least 5,000 Healing Salve remade pills, so you can divide it into 4,900."

"According to the dosage of seven capsules per box, 700 boxes can be made."

"Then you leave 20 boxes for each of the three countries, the United States, Germany, and the United Kingdom."

"The rest of you in the name of Oracle pharmacy in the country to engage in a trial drug program, screening 100 family situation of the most difficult, and most serious illness in cancer patients, the drug free of charge as a trial for them."

Speaking of which Charlie urged him again, "When testing drugs, we must gather them for a comprehensive clinical record, and then use scientific means to record their daily changes."

"Everything will be done in accordance with the methods of international regular pharmaceutical companies."

"After completing the trial drug, each person will be given 100,000 yuan for the hard work."

Chapter 3596

Liam Weaver knows that the trial of the special drug at this stage itself has attracted the attention of patients and their families.

Many patients immediately sign up for the trial as soon as they have a new drug.

For fear of not being able to catch up, the most of the trial drugs is that the drugs are free, and there are very few people who still pay.

Even if the money is given, it is only a symbolic carriage fee. Like Charlie, it is really unheard of that one person will give 100,000 yuan as soon as he opens his mouth.

However, he also knew that the reason why Charlie chose the patients with the most difficult family conditions and the most serious illnesses as the test drugs was not really to use them for clinical trials.

Charlie did this, but just wanted to do something good to provide a new chance for those critically ill patients with family difficulties.

So he said without hesitation, "Master Wade, I will immediately start production and packaging today, and I will try to take the earliest flight to the United States tomorrow and meet the person in charge of imported medicines over there."

Charlie nodded and said, "My business jet just came back. When you are ready, you can take it to the United States."

Liam Weaver said immediately, "Then I will go back and prepare now, and I can leave in the afternoon."

"In this case, it will be in the afternoon local time tomorrow."

“If I can arrive in Washington, I will make an appointment with the person in charge there in advance, and I will meet with him after I arrive in Washington.”

Charlie asked him, “Are you sure you can meet the key person in charge?”

Liam Weaver hurriedly said, “There are several public relations companies in the United States, which are responsible for helping major companies to publicize public officials in the United States.”

“They are mainly responsible for matching and letting companies meet relevant personnel in person.”

“The results of the discussions have nothing to do with him, as long as they pay them.”

“The corresponding public relations expenses will be able to invite the corresponding person out for a meal.”

Charlie nodded, and said, “Okay, then do that. First deliver the medicine to the key person, and the rest is up to them. “

Liam Weaver said with some concern, “Master Wade, it must be no problem to deliver the medicine to them, but I am afraid that this will not attract their attention, and the United States has a slight contempt for Oriental medicine...”

Charlie said seriously, “But if you go through the regular process, it will be more troublesome. A large number of clinical tests need to be carried out first, and then all the materials are submitted to them for review.”

“The review may also need to be queued. This may be one or two years later. We don’t have time to toss like this, so we can only win by surprise.”

After speaking, Charlie said again, “When you go to the United States this time, don’t give all the 20 boxes to the other party.”

“Give the other party a few boxes first and see the other party’s attitude.”

“If the other party chooses to completely ignore our medicine, Then you find a way to find a celebrity in the United States who has been diagnosed with cancer, and then find a way to send our medicine to him and let him try it.”

“Anyway, if you go this time, if you can’t attract their official attention, then find a way to attract the attention of their people.”

The Amazing Son-In-Law

Chapter 3597-3600

Chapter 3597

Liam Weaver melted Charlie’s medicinal mud and brought it back to Oracle Pharmaceutical.

In the afternoon, he used this medicinal mud to produce a full 700 boxes of Healing Salve Pills.

Afterwards, he took out twenty boxes from it and locked all the rest into the safe.

Immediately afterwards, he ordered his confidants to start publishing news about soliciting volunteers to test new anti-cancer drugs in China, asking these volunteers to provide explanations of their family situation and their real cases for review.

According to Liam Weaver’s plan, he intends to collect applicants in a week, and then select the most suitable 100 people from these applicants, and then invite them all to Aurous Hill to conduct drug testing.

He knew very well that this was actually Charlie giving a hundred people or a hundred families a chance to be born again.

After arranging these, he rushed to the airport with 20 boxes of Healing Salve pills and hurried to the United States.

At the moment the plane took off, Liam Weaver was still a little nervous.

He still didn't understand the efficacy of these Healing Salve Pills, so he didn't know if he could complete the task that Charlie explained during his trip to the United States.

But he couldn't even dream of what kind of waves these twenty boxes of Healing Salve Pill would cause in the United States.

.....

On the evening of Liam Weaver's departure for the United States, Wade family's Concorde also quietly flew to Aurous Hill to prepare for Charlie's Middle East trip in advance.

In order to be able to solve all the problems of the Dragon Hall prisoners and the base in one step, Charlie not only made an agreement with Wesley to meet at the Lebanese capital Beirut Airport tomorrow morning, but also contacted Commander Hamid in advance.

He first made Commander Hamid ready to provide a place for negotiation, and then called Sayed, the now elevated leader of the government army.

Sayed is now a national hero and meritorious service.

The 15,000 soldiers in the Dragon Hall were captured without blood, which made him famous in the first battle.

In addition, he has also been promoted within the government army, and now he has a bright future.

However, he is also worrying about the 15,000 soldiers in the Dragon Hall.

So many prisoners have far exceeded the throughput capacity of their prison system, so they could only build a temporary prison with marching tents and barbed wire in a mountainous area outside the suburbs, and imprison the soldiers of the Dragon Hall here.

However, feeding these 15,000 soldiers is a huge burden for them, and just feeding them every day will cost a lot of money.

In addition, maintaining the operation of this temporary prison also requires a lot of manpower and material resources, which is even worse for the government forces that are already somewhat stretched.

They originally wanted to have a talk with Wesley to see if Dragon Hall would pay a compensation, and then quickly take away the 15,000 prisoners, but during this time, Wesley was either busy.

Seeking revenge for the Wade family is either kneeling on Wade Mountain to confess, or busy with the funeral of his parents and the whitewashing task arranged by Charlie, so they can't get in touch with Wesley at all.

Just when he didn't know how to deal with these prisoners, Charlie called.

Sayed only knew that Charlie's surname was Wade, but he didn't know that Charlie was from the Wade family, so he didn't think much about receiving Charlie's call, and asked him very politely, "Why is Mr. Wade free to call me?"

Charlie smiled and said, "Mr. Sayed, I am calling to communicate with you about the Dragon Hall."

Chapter 3598

"Dragon Hall?" Sayed suddenly became excited and asked hurriedly, "Mr. Wade, Do you have any good suggestions about the Dragon Hall?"

"To tell you the truth, these prisoners have already caused me a mess..."

Charlie smiled and said, "I just want to communicate with you."

"Now, let this matter be completely resolved, do you have time tomorrow?"

"If your time is OK, we will meet at Commander Hamid's base and have a good talk about this matter."

After that, Charlie said again, "By the way, I will also call Wesley, the lord of the Dragon Hall."

Sayed exclaimed, "Mr. Wade, do you know Wesley?"

Charlie said, "I didn't know him before, and I only met him recently, so I want to help you mediate in the middle and find a solution that is beneficial to both parties."

"What do you think?"

"No problem!" Sayed accepted without hesitation.

For him, those captives are now very difficult.

If they have been kept in such detention, he still don't know how much it will cost to continue to inject it.

But if they were released and driven out of the country directly, then this matter would be solved.

Therefore, he is now a bit hard to get off.

.....

Early the next morning, Charlie went out of the house alone on the excuse of something.

After driving to the airport, he took the Concorde directly to Lebanon.

At noon, Charlie had already met with Wesley in Lebanon, and then went directly to Commander Hamid's base by helicopter.

Commander Hamid also got up early at this time, packed up, and awaited Charlie's ride.

On the plane, Wesley reported to Charlie, "Mr. Wade, I have passed through Miss Scott."

"In the next month, BAIT Shipping will have 43 freighters passing through the Gulf of Aden."

"By then, our escort soldiers will advance. Get in touch with freighter seamen and escort each freighter on board."

Charlie nodded and asked him, "How many escort soldiers does a ship need?"

Wesley said, "The industry practice of armed escort is three."

"Generally when the pirates are approaching, these escorts will fire their shots, and the pirates will basically stop attacking when they find armed personnel."

As he said, Wesley continued, "We currently have three people in each group."

"The combat level of the soldiers in the Dragon Hall is much better than those armed escorts."

"Three people are enough to deal with the pirates."

Charlie asked, "If you encounter pirates, you must fight a beautiful battle, and strive to make Dragon Hall famous in the field of armed escort."

Wesley looked awkward, and said seriously, "Mr. Wade, rest assured, I have already told my subordinates."

"Now, if we are lucky and can meet the pirates, then we must make sure to wipe out all the pirates and leave one alone!"

Charlie waved his hand and said, "All wiped out is boring."

After saying that, Charlie said again, "You look, the gang of pirates usually like to do most things, is to kidnap the crew for ransom, so why do not we let them board first, and then in turn gave them alive, and find them to ransom it?"

Wesley was taken aback for a moment, and then said with some excitement, "This is a good way! With the way of the other, the body of the other, then the reputation of the Dragon Hall can be completely beaten out!"

Charlie nodded and said, "If they pay the ransom, then let them go, and if they don't pay the ransom, they will be killed!"

"From now on, Dragon Hall must be even more black than their hearts with these pirates! But also good to play them, they play to play acting afraid of you, the only way to make them honest and down in front of you."

Charlie added, "I know a bit about the Gulf of Aden that the pirates on the side are numerous and have a very strong mentality of revenge."

"If they dare to retaliate against the Dragon Hall in the future or against the cargo ship of BAIT Shipping, we will directly send a few five-star warlords to sneak into their lair and kill their leader."

"If the new leader comes up, if he dares to be an enemy of us, kill him too!"

"Keep working until there is a leader who dares not to be an enemy of us again!"

Chapter 3599

Charlie believes in killing people most.

The only way to make those wicked people be honest is to be more vicious and evil than them.

The pirates active in the Gulf of Aden have the same style as the bandits that were active in the past.

Killing and transgressing is their means of survival.

In recent years, these pirates have become more and more rampant, and the number of hijackings that occurs every year is increasing.

Recently, it has reached the level that freighters have been attacked almost every day, and they have been able to succeed frequently.

Charlie often sees news about pirate robberies in the news, and they often shoot hostages.

Therefore, Charlie hopes that Dragon Hall can use the power of the gods to descend to the earth to make those pirates frightened.

Since it is a place outside the law, it depends on who is more ruthless than others.

After dozens of minutes of flight, the helicopter was about to arrive over the Commander Hamid base.

At this time, the sky in the Middle East has just lighted up.

Taking advantage of the rising sun, Wesley looked at the high grounds around Commander Hamid's base intently.

He was always curious about what kind of iron barrel defense Commander Hamid had to keep Dragon Hall here.

Thousands of mercenaries were ruined.

However, when he looked around, he found that these highlands, and the valleys surrounded by highlands, were basically invisible to be a military base, and even soldiers were hard to see.

The only large-scale target that can be seen is that there are many trucks transporting rocks and muck, constantly shuttled through the mountain pass.

Apart from that, nothing can be seen.

The more he couldn't see anything, the more shocked Wesley felt.

Because this proves that Commander Hamid has transferred all of his power to the permanent fortifications in the mountain.

Even if tens of thousands of troops attacked, they couldn't find the target at all.

Moreover, no one knows how many firepower points are hidden in these mountains, let alone how many weapons, ammunition, and food supplies are stored here.

Just when he was shocked, the helicopter flew over Commander Hamid's valley and slowly landed on the valley's flat ground.

The original houses and ruins in the valley have basically been cleaned up, and the entire valley has now basically become a flat land.

And it can be seen that it has been transformed into a training ground, with playgrounds, shooting ranges and various obstacle training grounds.

Commander Hamid also waited for a long time.

Seeing Charlie got off the helicopter with a Chinese, he immediately stepped forward and greeted enthusiastically, "Brother Wade! We meet again!"

"After a long time, I was better than before."

"I have gained weight, and I can see that my life has been very moisturized recently."

Charlie said with a smile, "Brother seems to be in a good mood, what good things have you encountered recently?"

Commander Hamid said seriously, "It's a good thing not to fight, and you see me here more and more like that, the safer the repair, the more at ease in my heart."

Charlie nodded, introduced him to the Wesley around him, and said, "Come on, brother, let me introduce to you. This is the Dragon Hall's Lord, Wesley."

After that, he said to Wesley, "Creighton, this is Commander Hamid. You had a little conflict with Commander Hamid before in Dragon Hall, but that was all in the past."

"When something is up, everyone will turn the story completely and turn the enemy into a friend!"

Wesley took a step forward almost without thinking, proactively stretched out his hand, and said politely, "Commander Hamid, I've been admired for a long time."

Commander Hamid watched. Looking at Wesley, he felt a little nervous and frustrated.

Although he is a little swollen now, he hasn't really swollen to the point of daring to despise Wesley.

After all, there are tens of thousands of soldiers in the Dragon Hall, and the master is like a cloud.

Even if thousands of soldiers were lost in Commander Hamid's hands because of underestimating the enemy, the strength of the Dragon Hall is still much stronger than Commander Hamid.

Chapter 3600

Moreover, Commander Hamid had heard about the masters in the Dragon Hall, and was very worried that Dragon Hall would seek revenge on himself in the future.

Now Charlie actually reconciled it, asking him to turn the enemy into a friend with Wesley, he was naturally 10,000 times willing.

So, he shook hands with Wesley hurriedly, and said excitedly, "Hello Mr. Krueger! The previous things are so offensive, please don't take it to your heart..."

Wesley solemnly said, "Commander Hamid, please rest assured, since Mr. Wade has said that he wants to turn the article completely, I will never get entangled any more."

Commander Hamid saw that Wesley was so refreshing, and there was respect for Charlie both inside and out.

He couldn't help being surprised, he couldn't understand why Wesley respected Charlie so much.

Charlie smiled slightly at this time, and said in a shocking voice, "Brother, Wesley and his Dragon Hall have sworn allegiance to me. From now on, he will be his own to you."

Charlie said that, Commander Hamid was stunned!

He originally thought that Charlie was here to reconcile this time, but he never dreamed that Wesley and Dragon Hall had already made allegiance to Charlie.

So he subconsciously asked, "Brother... is this true? Are you kidding me?"

Just when he couldn't believe all this, Wesley also said, "Commander Hamid , Mr. Wade is not joking with you, Dragon Hall has indeed sworn allegiance to Mr. Wade!"

Commander Hamid was horrified, looked at Charlie, and muttered, "Brother...how did you do it?"

Charlie smiled and said, "I'll talk about this later, when will Sayed arrive?"

Commander Hamid looked at the time and replied, "It's probably another ten minutes."

"Okay." Charlie nodded, "Then let's wait for him here."

Ten minutes later, another helicopter landed slowly in the valley.

Sayed, wearing a military uniform, jumped out of the helicopter with strides, and when he saw Charlie, he warmly greeted him, "Hello, Mr. Wade! We finally meet again!"

Charlie nodded and smiled, exchanged a few words with him, and then introduced Wesley to him.

Sayed had never seen Wesley before, and suddenly learned that the young man next to Charlie was Wesley, and he hadn't recovered for a while.

Charlie patted Sayed on the shoulder and said with a smile, "This time I have an interview with you, I just want to solve the problems between you and Dragon Hall in one step, and provide you with a better choice, how about we go to the meeting room of Commander Hamid to talk in detail?"

"Good!" Sayed quickly agreed.

When the four of them came to the conference room, Charlie said straight to Sayed, "Sayed, the 15,000 prisoners in the Dragon Hall must be a lot of burden for you, right?"

In front of Wesley, he naturally did not want to admit this, so he pretended to say relaxedly, "In fact, it doesn't matter. We have set aside a place for them to imprison them, and everything is in order."

Charlie smiled and said, "Sayed, here today, in fact, no matter me, Commander Hamid, or even Wesley, I am no longer your enemy, but your friend."

Charlie said again, "Since Commander Hamid successfully defended the attacks of the government and the Dragon Hall, other opposition forces have also begun to vigorously strengthen their defenses."

"In the future, they will all develop bases in the mountains that are easy to defend and difficult to attack."

"It is difficult for you to fight. Coming down, and you yourself have no danger to guard, the situation in the future will only become more and more passive."

Sayed's expression remained unchanged, but he was really worried about this matter in his heart.

Right now, the two sides are indeed in a stalemate. Originally, this stalemate did not make the government forces too anxious.

After all, they always felt that the other party was in the defensive stage.

However, what happened in another country in the Middle East some time ago made their backs chill.

Great changes have just taken place in that country, and it is the passive side who fought guerrillas in the mountains who won the final victory.

This greatly stimulated their nerves and made them suddenly nervous.

At this time, Charlie said sternly, "Sayed, if you want, Dragon Hall can become your half ally in the future."

Sayed asked in surprise, "What is a half ally?"

Charlie smiled slightly and explained, "They will become your body armor, although they will not participate in your offensive, but if you are in danger, they will fully assist you in defense and defend the opponent's fatal blow!"
